Political English Thomas Docherty, 2019-08-08 From post truth politics to no platforming on university campuses the English language has been both a potent weapon and a crucial battlefield for our divided politics In this important and wide ranging intervention Thomas Docherty explores the politics of the English language its implication in the dynamics of political power and the spaces it offers for dissent and resistance From the authorised English of the King James Bible to the colonial project of University English Studies this book develops a powerful history for contemporary debates about propaganda free speech and truth telling in our politics Taking examples from the US UK and beyond from debates about the Second Amendment and free speech on campus to the Iraq War and the Grenfell Tower fire this book is a powerful and polemical return to Orwell's observation that a degraded political language is intimately connected to an equally degraded political culture

Ninet, 2023-07-31 This collection presents an analysis of the concept of secession and its constitutional accommodation alongside an assessment of the effects of secession in constitutional and international law The work proposes a new approach and insights into the existing literature that fill a gap from multidisciplinary and transdisciplinary perspectives The book approaches the topics of secession constitutionalism and their relationship from both theoretical and empirical perspectives

including the analysis of particular secessionist examples such as Catalonia the Basque Country Tigray the Palestinian minority in Israel Bosnia and Herzegovina and the Mapuche Nation from a comparative constitutional perspective Elucidating these issues from different methodological and conceptual perspectives produces novelties in the scientific and constitutional debate The interplay between constitutions constitutional law and secession is indeed explored from philosophical socio legal but also from strict constitutional law outlooks Written by constitutional and public international law experts the book will be of interest to students academics and researchers working in the areas of constitutional law legal theory theory of the state philosophy of law and political science State, Politics, and Social Classes Armando Boito, 2023-03-24 This book offers a reassessment politics against the predominating economicist approach to historical materialism within contemporary Marxism Boito draws on the structural interpretation of Marxism inspired by Althusser's works of the mid 1960s and especially by Poulantzas Political Power and Social Classes The volume aims to demonstrate the role of the political dimension together with the economy and to a further extent to contribute to renew contemporary Marxist political theory The chapters cover topics such as the nature of political power the structure and functions of the state the role of politics in historical change political crises and the political formation of the working class The book highlights the role of political structures and practices in the reproduction of economic and social relations and also in the process of historical change The aim of the book is to contribute to the renewal of Marxist thought breaking with the economicist conception that dominated it throughout the last century and finally meeting the demands of the socialist struggle in the 21st century *South Africa, the Prospects of Peaceful Change* Theodor Hanf, Heribert Weiland, Gerda Vierdag, 1981 **The Politics of Not Speaking** Elad Lapidot, 2025-02-01 In contrast to the common understanding of politics as a domain of speaking reveals an alternative tradition where the spoken word fails collapses breaks i.e. a politics of not speaking According to a common conception modern politics is based on speaking on discussion and rational argumentation on logos In contrast The Politics of Not Speaking argues that politics is based not on speaking but on the suspension of conversation on the break of rational discourse on logoclassm on politics of not speaking Elad Lapidot presents the notion of politics as logoclassm through readings of five canonic thinkers of the twentieth century Carl Schmitt Martin Heidegger Frantz Fanon Gayatri Spivak and Jacques Derrida Tracing the development of the politics of not speaking from the 1930s to the 1990s he shows how the notion of logoclassm the rupture of rational discussion explains key notions in modern politics such as sovereignty law the state violence war race colonialism decolonization and boycott and sheds light on current debates concerning the Boycott Divestment Sanctions BDS movement and the Gaza war The Saturday Review of Politics, Literature, Science and Art, 1858 Language is Politics Frank van Splunder, 2019-11-27 Language is Politics discusses power relations between languages in the world with a particular focus on English Even though English is the most widely spoken and the most powerful language worldwide it is not the lingua franca it is often supposed to be The basic tenet of this

book is that languages do not exist in the natural world they are artefacts made by humans The book debunks some common myths about language and it suggests that we should be more modest in our assumptions for instance concerning the linguistic uniqueness of our own species The author argues in favour of an ecological or balanced approach to language This approach sees humans and other animals as part of the larger ecosystems that life depends on As in nature diversity is crucial to the survival of languages The current linguistic ecosystem is out of balance and this book shows that education can help to restore the balance and cope with the challenges of a multilingual and multicultural world With an ecological approach to language and a focus on narratives and personal language histories this will be key reading for researchers and academics as well as students of English language and linguistics **Piety, Politics, and Power** David D.
