**The Isma'ilis** Farhad Daftary, 1992-04-24 Scattered across the globe the Isma'ilis constitute the second largest Shi'i community in the Muslim World This study traces their history and doctrinal developments from their origins to the present day over a period of twelve centuries Marco Polo's China Stephen G. Haw, 2006-11-22 Marco Polo's famous book about his journey to China written in 1298 continues to be a subject of considerable controversy One recent work on the subject argues that Marco Polo never went to China at all and other scholars have pointed out apparent mistakes and important omissions in Marco's writings including his failure to mention the Great Wall and his apparently erroneous description of the course of the Yellow River Haw re-examines Marco Polo's writings The main arguments against his credibility have been negative concentrating on things that it is argued he should have seen and noted but did not The most serious of these supposed omissions are generally said to be his failure to describe the Chinese writing system tea foot binding and the Great Wall of China Yet Haw argues that what he does mention is impressive and argues strongly for his veracity This book clarifies Marco Polo's itineraries in China and proposes several new identifications of places mentioned Relying extensively on original Chinese sources and supplemented by Haw's wide knowledge of China Marco Polo's China presents a convincing argument and concludes that his work is an accurate important and useful source from an extraordinary period of Chinese history **The Every-day Book of Modern Literature Compiled and Edited by the Late George H. **Distant Lands and Diverse Cultures** Glenn J. Ames, Ronald S. Love, 2003-07-30 Utilizing contemporary accounts of India China Siam and the Levant this study provides rich detail about these exotic lands and explores the priorities that shaped and motivated these bold envoys and chroniclers Ames and Love offer a fascinating look at the symbiotic nature of cross cultural interaction between France and the major trading regions of the Indian Ocean basin during the 17th century During this period of intense French interest in the rich trade and cultures of the region Louis XIV and his minister Jean Baptiste Colbert in particular were concerned with encouraging French travelers both clerical and lay to explore and document these lands Among the accounts included here are those of François Bernier Jean Baptiste Tavernier and François Pyrard Because these accounts reflect as much about the structures and priorities of France as they do about the cultures

they describe Ames and Love hope their analysis bridges the gap between studies on early modern France and those on the major Asiatic countries of the same period Their findings challenge the current thinking in the study of early modern France by demonstrating that overseas expansion to Asia was of considerable importance and interest to all segments of French society Specialists in traditional internal French history will find much in this study of European expansion to complement and supplement their research     Catalogue of Printed Books British Museum.
