discovery that people in black skins were the first architects the first astronomers the first physicians the first scientists He then discovered after experiencing the constant negation of any history beyond slavery that the history of people in black skins are the blueprints the foundation the mold from which people in white skins built their history The message here is how there is no end to the racism that Christianity used to support slavery and the lynching of people in black skins That is relevant to the continued lynching of blacks today by the old slave catchers called police What we as readers will take away from this book is a better sense of what happened and that we are all equal beings under God The politics of religions that supported slavery and the practice of racism over the centuries continuing today with their false teachings about the Jews being enslaved by the Egyptians and all the falsities related to that narrative must change The changes in thinking will free the children of people in black skins as well as other skin colors to know that their people are the ones that fed clothed sheltered and supplied the foundation that built and maintained western civilization **Scientific American** ,1922 Monthly magazine devoted to topics of general scientific interest
