The text continues to support the entry-level occupational therapist and the experienced occupational therapist focused on expanding skills and knowledge. With the OT practice framework as a guide, you will focus on the core concepts and central goals of client care. And by studying threaded case studies, you will learn to apply theory to clinical practice. Written by a team of expert OT educators and professionals led by Heidi McHugh Pendleton and Winifred Schultz-Krohn, this edition includes an eBook free with each new print purchase featuring a fully searchable version of the entire text. UNIQUE Threaded case studies begin and are woven through each chapter, helping you develop clinical reasoning and decision-making skills and to apply concepts to real-life clinical practice. UNIQUE Ethical Considerations boxes examine the obligation to collaborate with clients on their care using evidence to select treatment options. UNIQUE OT Practice Notes convey important tips and insights into professional practice. Illustrated evidence-based content provides a foundation for practice, especially relating to evaluation and intervention. Information on prevention rather than simply intervention or treatment shows how OTs can take a proactive role in client care. Focus on health promotion and wellness addresses the role of the occupational therapist in what the AOTA has identified as a key practice area. Content on cultural and ethnic diversity is included in every chapter, reflecting occupational therapy's commitment to this important issue. Key terms, chapter outlines, and chapter objectives highlight the information you can expect to learn from each chapter.

Occupational Therapy Models for Intervention with Children and Families Sandra Barker Dunbar, 2007 This textbook explores recent theoretical models that enable occupational therapists to practice and interact with families in a more holistic and occupation-centered manner. It offers the latest information on viewing the broader contexts of environment and family in order to meet diverse occupational needs in a range of settings. The editor presents a variety of case scenarios that feature culturally diverse populations and varying diagnoses of children with occupational needs. With contributions from 11 leaders in occupational therapy, this comprehensive text is designed to increase awareness and understanding of theoretical models and their relationship to current occupational therapy practice with today's children and families. Traditional frames of reference in pediatric practice are explored, including sensory integration and neurodevelopmental treatment. Some current theoretical models discussed include the Model of Human Occupation, the Person-Environment-Occupation model, the Ecology of Human Performance model, and the Occupational Adaptation model.

The new Occupational Therapy Practice Framework is incorporated throughout the text Overall the textbook employs a practical approach to this significant aspect of pediatric practice in occupational therapy Occupational Therapy in Mental Health Catana Brown, Virginia C Stoffel, Jaime Munoz, 2019-02-05 This revision of a well loved text continues to embrace the confluence of person environment and occupation in mental health as its organizing theoretical model emphasizing the lived experience of mental illness and recovery Rely on this groundbreaking text to guide you through an evidence based approach to helping clients with mental health disorders on their recovery journey by participating in meaningful occupations Understand the recovery process for all areas of their lives physical emotional spiritual and mental and know how to manage co occurring conditions
