Fat Politics J. Eric Oliver, 2005-11-15 In reviewing the scientific evidence Oliver shows there is little proof that obesity causes so much disease and death or that losing weight is what makes people healthier Our concern with obesity he writes is fueled more by social prejudice bureaucratic politics and industry profit than by scientific fact Misinformation pushes millions of Americans towards dangerous surgeries crash diets and harmful diet drugs while we ignore other more real health problems

Combined and Uneven Apocalypse Evan Calder

Williams, 2011-04-16 From the repurposed rubble of salvagepunk to undead hordes banging on shopping mall doors from empty waste zones to teeming plagued cities Combined and Uneven Apocalypse grapples with the apocalyptic fantasies of our collapsing era Moving through the films political tendencies and recurrent crises of late capitalism Evan Calder Williams paints a black toned portrait of the dream and nightmare images of a global order gone very very wrong Situating itself in the defaulting financial markets of the present Combined and Uneven Apocalypse glances back toward a messy history of zombies car wrecks tidal waves extinction trash heaps labour pandemics wolves cannibalism and general nastiness that populate the underside of our cultural imagination Every age may dream the end of the world to follow but these scattered nightmare figures are a skewed refraction of the normal hell of capitalism The apocalypse isn t something that will happen one day it s just the slow unveiling of the catastrophe we ve been living through for centuries Against any fantasies of progress return or reconciliation Williams launches a loathing critique of the bleak present and offers a graveside smile for our necessary battles to come
