**Jean Toomer** Barbara Foley, 2014-07-15 The 1923 publication of Cane established Jean Toomer as a modernist master and one of the key literary figures of the emerging Harlem Renaissance Though critics and biographers alike have praised his artistic experimentation and unflinching eyewitness portraits of Jim Crow violence few seem to recognize how much Toomer's interest in class struggle catalyzed by the Russian Revolution and the post World War One radical upsurge situate his masterwork in its immediate historical context In Jean Toomer Race Repression and Revolution Barbara Foley explores Toomer's political and intellectual connections with socialism the New Negro movement and the project of Young America Examining his rarely scrutinized early creative and journalistic writings as well as unpublished versions of his autobiography she recreates the complex and contradictory consciousness that produced Cane Foley's discussion of political repression runs parallel with a portrait of repression on a personal level Examining family secrets heretofore unexplored in Toomer scholarship she traces their sporadic surfacing in Cane Toomer's text she argues exhibits a political unconscious that is at once public and private

**Writing the American Classics** James Barbour, Tom Quirk, 2018-11-15 This collection of essays describes the genesis of ten classic works of American literature Using biographical cultural and manuscript evidence the contributors tell the stories of stories plotting

the often curious and always interesting ways in which notable American books took shape in a writer's mind. The genetic approach taken in these essays derives from a curiosity and sometimes a feeling of awe about how a work of literature came to exist, what motivated its creation, informed its vision, urged its completion. It is just that sort of wonder that first brings some people to love writers and their books. Originally published in 1990, A UNC Press Enduring Edition, UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value. *Freud's Foes* Kurt Jacobsen, 2009-08-16. Freud's Foes, the latest title in the Polemics series, addresses Freud's fiercest contemporary critics. Kurt Jacobsen defends psychoanalysis while accepting that it has inherent flaws. He argues that although today's foes pose as daring savants, they are only the latest wave of critics that psychoanalysis has encountered since its controversial birth, and he easily debunks their arguments.

**Critical Theory and The English Teacher** Nick Peim, 2002-03-11. In this radical exploration, Nick Peim himself, a practising English teacher, shows how teachers can use critical theory to bring students' own experience back into the subject. The author explains how the insights of discourse theory, psychoanalysis, semiotics, and deconstruction can be used on the material of modern culture as well as on and in oral work. The book is written in a style which even those with no background in critical theory will find approachable, and arguments are backed up with practical classroom examples. *The Dialect of Modernism* Michael North, 1998-01-22. The Dialect of Modernism uncovers the crucial role of racial masquerade and linguistic imitation in the emergence of literary modernism. Rebelling against the standard language and literature written in it, modernists such as Joseph Conrad, Gertrude Stein, T. S. Eliot, Ezra Pound, and William Carlos Williams reimagined themselves as racial aliens and mimicked the strategies of dialect speakers in their work. In doing so, they made possible the most radical representational strategies of modern literature, which emerged from their attack on the privilege of standard language. At the same time, however, another movement identified with Harlem was struggling to free itself from the very dialect the modernists appropriated at least as it had been rendered by two generations of white dialect writers. For writers such as Claude McKay, Jean Toomer, and Zora Neale Hurston, this dialect became as rigid as the standard language itself. Thus the two modern movements which arrived simultaneously in 1922 were linked and divided by their different stakes in the same language. In *The Dialect of Modernism*, Michael North shows, through biographical and historical investigation and through careful readings of major literary works, that however different they were, the two movements are inextricably connected and thus cannot be considered in isolation. Each was marked for good and bad by the other. *Deep River* Paul Allen Anderson, 2001-07-19. A critical and historical study of the debate over early African American music that draws on the views of W. E. B. Du Bois, Alain Locke, Langston Hughes, Zora Neale Hurston, and others to show competing notions of how this music relates to cultural inheritance. English Essentials for the High School Harry Gilbert Paul, William D. Miller, 1929.

**Writing Feminist Lives** Malin Lidström Brock, 2017-05-05 This book draws attention to the controversy that surrounds Betty Friedan Germaine Greer Gloria Steinem and Simone de Beauvoir's lives and the important role that their life stories have played in their feminist writing. Directly and indirectly the four women have contributed to battles over feminism's meaning through autobiographically informed political writing. Inevitably therefore their biographers are also participants in these battles yet not always on the same side as their subjects. *Writing Feminist Lives* introduces a further fold of nuance into considerations of biography and feminism by showing that the biographers of the four women have made methodological choices that reflect their loyalty to or their scepticism towards competing ideological definitions of the exemplary feminist life.

*Masters of the Symphony* Percy Goetschius, 1929 *Teachers' Monographs*, 1912 **New York Teachers' Monographs**, 1912 **The Bookman**, 1922 **True Believer: The Rise and Fall of Stan Lee** Abraham Riesman, 2022-03-01 The definitive revelatory biography of Marvel Comics icon Stan Lee, a writer and entrepreneur who reshaped global pop culture at a steep personal cost. HUGO AWARD FINALIST EISNER AWARD NOMINEE *True Believer* is in every imaginable way the biography that Stan Lee deserves: ambitious, audacious, daring and unflinchingly clear-eyed about the man's significance, his shortcomings, his transgressions, his accomplishments and his astonishing legacy. Robert Kolker, author of *Hidden Valley Road*, says Stan Lee was one of the most famous and beloved entertainers to emerge from the twentieth century. He served as head editor of Marvel Comics for three decades and in that time became known as the creator of more pieces of internationally recognizable intellectual property than nearly anyone: Spider-Man, the Avengers, the X-Men, Black Panther, the Incredible Hulk—the list goes on. His carnival barker marketing prowess helped save the comic book industry and superhero fiction. His cameos in Marvel movies have charmed billions. When he died in 2018, grief poured in from around the world, further cementing his legacy. But what if Stan Lee wasn't who he said he was? To craft the definitive biography of Lee, Abraham Riesman conducted more than 150 interviews and investigated thousands of pages of private documents, turning up never-before-published revelations about Lee's life and work. *True Believer* tackles tough questions: Did Lee actually create the characters he gained fame for creating? Was he complicit in millions of dollars worth of fraud in his post-Marvel life? Which members of the cavalcade of grifters who surrounded him were most responsible for the misery of his final days? And above all, what drove this man to achieve so much yet always boast of more?
