The Rubato Composer Music Software Gérard Milmeister, 2009-04-05 Both modern mathematical music theory and computer science are strongly influenced by the theory of categories and functors One outcome of this research is the data format of denotators which is based on set valued presheaves over the category of modules and diaffine homomorphisms The functorial approach of denotators deals with generalized points in the form of arrows and allows the construction of a universal concept architecture This architecture is ideal for handling all aspects of music especially for the analysis and composition of highly abstract musical works This book presents an introduction to the theory of module categories and the

theory of denotators as well as the design of a software system called Rubato Composer which is an implementation of the category theoretic concept framework The application is written in portable Java and relies on plug in components so called rubettes which may be combined in data flow networks for the generation and manipulation of denotators The Rubato Composer system is open to arbitrary extension and is freely available under the GPL license It allows the developer to build specialized rubettes for tasks that are of interest to composers who in turn combine them to create music It equally serves music theorists who use them to extract information from and manipulate musical structures They may even develop new theories by experimenting with the many parameters that are at their disposal thanks to the increased flexibility of the functorial concept architecture Two contributed chapters by Guerino Mazzola and Florian Thalmann illustrate the application of the theory as well as the software in the development of compositional tools and the creation of a musical work with the help of the Rubato framework

UNDERSTANDING THE CREATION ACCOUNT
Edward D. Andrews, 2016-03-01 Throughout the Scriptures God is identified as the Creator He is the One who created the heavens He is the God who formed the earth and made it He established it Isa 45 18 He is the One who forms mountains and creates the wind Am 4 13 and is the One who made the heaven and the earth and the sea and all that is in them Ac 4 24 14 15 17 24 God created all things Eph 3 9 Jesus Christ tells us that it is the Father who created them humans from the beginning made them male and female Matt 19 4 Mark 10 6 Hence the Father is fittingly and uniquely called the Creator Isa 40 28 It is because of God's will that we exist for He has created all things and because of his will they existed and were created Revelations 4 11 The Bible is loaded with thousands of what the Bible critic calls errors mistakes and contradictions including and especially the creation account itself However these are nothing more than difficult challenging passages many of which become obstacles in the development of our faith These difficulties arise out of differences in culture language religious and political organizations not to mention between 2 000 to 3 500 years of separation between the Bible author and the modern day reader Calling attention to these difficulties and sifting out the misconceptions Andrews defends the full inerrancy of the Bible clarifies the so called errors and what might seem like apparent contradictions He arms the Christian with what he or she needs to defend their faith in the Bible
