Better Outcomes Rafael E. Salazar,2022-09-20 We have a problem in healthcare That problem is this in today s healthcare environment especially in the United States people take a back seat to the numbers in almost every aspect of healthcare service delivery Productivity utilization and other business metrics rule the roost If it s not calculatable spreadsheet able or measurable it hardly receives any attention from healthcare managers administrators and decision makers We can t simply sit back and allow the dehumanization that currently runs rampant in our clinics and hospitals continue to wreak havoc on one of the most important factors in clinical outcomes the relationships between healthcare professionals and the people patients that they serve Healthcare is a great and noble profession but it will only remain so if we as healthcare professionals return its focus to its true purpose people the people receiving care and the people working to deliver that care After all we re all more than simply numbers on spreadsheets or items on checklists

Better Outcomes A Guide for Humanizing Healthcare outlines the 8 changes that organizations and clinicians need to commit to in order to return to the focus of healthcare to where it should be the patient The book covers topics related to truly patient centered care a biopsychosocial approach to service delivery patient engagement interpersonal communication and developing long term relationships with patients Through an exploration of both clinical research and real life examples and cases the book outlines and supports a vision of a new healthcare where skilled competence and caring clinicians care for engaged patients to promote better clinical outcomes deliver unmatched satisfaction and lasting relationships
