You Have to Be Prepared to Die Before You Can Begin to Live Paul Kix, 2023-05-02 From journalist Paul Kix the riveting story never before fully told of the 1963 Birmingham Campaign ten weeks that would shape the course of the Civil Rights Movement and the future of America. It is one of the iconic photographs of American history: A Black teenager, a policeman and his lunging German Shepherd. Birmingham, Alabama, May of 1963. In May of 2020, as reporter Paul Kix stared at a different photo—that of a Minneapolis police officer suffocating George Floyd—he kept returning to the other photo taken half a century earlier, haunted by its echoes. What Kix wondered was the full legacy of the Birmingham photo and of the campaign it stemmed from. In *You Have to Be Prepared to Die Before You Can Begin to Live*, Paul Kix takes the reader behind the scenes as he tells the story of the Southern Christian Leadership Conference's pivotal 10-week campaign in 1963 to end segregation in Birmingham, Alabama. At the same time, he also provides a window into the minds of the four extraordinary men who led the campaign: Martin Luther King Jr., Wyatt Walker, Fred Shuttlesworth, and James Bevel. With page-turning prose that reads like a thriller, Kix's book is the first to zero in on the ten weeks of Project C as it was known, its specific history, and its echoes sounding throughout our culture now. It is about where it all began for sure, but it is also the key to understanding where we are now and where we will be. As the fight for equality continues on many fronts, Project C is crucial to our understanding of our own time and the impact that strategic activism can have.

The Accountability of Armed Groups Under Human Rights Law Katharine Fortin, 2017 Today the majority of the armed conflicts around the world are fought between States and armed groups rather than between States. This changed conflict landscape creates an imperative to clarify the obligations of armed groups under international law. While it is generally accepted that armed groups are bound by international humanitarian law, the question of whether they are also bound by human rights law is controversial. This book brings significant new understanding to the question of whether and when armed groups might be bound by human rights law. Its conclusions will benefit international law academics, legal practitioners, and political scientists and anthropologists working on issues related to rebel governance and civil wars. This book addresses the debate on this topic by employing a theoretical, historical, and comparative analysis that spans international humanitarian law, international criminal law, and international human rights law. Embedding these different perspectives in public international law, this book brings several key points of clarification to the legal framework. Firstly, the book draws upon social science literature on armed conflict to present a new viewpoint on the role that human rights law plays vis-à-vis international humanitarian law in non-international armed conflicts. Secondly, the book sheds light on the circumstances in which armed groups acquire obligations under human rights law. It brings illumination to these topics by combining historical and comparative research on belligerency, insurgency, and international humanitarian law with a theoretical analysis of legal personality under international law. In the final part of the book, the author tests the four most

utilised theories of how armed groups are bound by human rights law examining whether armed groups can be bound by virtue of i treaty law ii control of territory iii international criminal law and iv customary international law In the book s conclusions the author presents final remarks that are designed to provide concrete guidance on how the issue of armed groups and human rights law can be dealt with more thoroughly in practice
