Redemption Deviant English Edition:

Everyday Life in the Early English Caribbean Jenny Shaw, 2013 Set along both the physical and social margins of the British Empire in the second half of the seventeenth century *Everyday Life in the Early English Caribbean* explores the construction of difference through the everyday life of colonial subjects Jenny Shaw examines how marginalized colonial subjects Irish and Africans contributed to these processes By emphasizing their everyday experiences Shaw makes clear that each group persisted in its own cultural practices Irish and Africans also worked within and challenged the limits of the colonial regime Shaw's research demonstrates the extent to which hierarchies were in flux in the early modern Caribbean allowing even an outcast servant to rise to the position of island planter and underscores the fallacy that racial categories of black and white were the sole arbiters of difference in the early English Caribbean The everyday lives of Irish and Africans are obscured by sources constructed by elites Through her research Jenny Shaw overcomes the constraints such sources impose by pushing methodological boundaries to fill in the gaps silences and absences that dominate the historical record By examining legal statutes census material plantation records travel narratives depositions interrogations and official colonial correspondence as much for what they omit as for what they include *Everyday Life in the Early English Caribbean* uncovers perspectives that would otherwise remain obscured This book encourages readers to rethink the boundaries of historical research and writing and to think more expansively about questions of race and difference in English slave societies

Attitudes, Behavior, and Social Context Deborah J. Terry, Michael A. Hogg, 1999-11-01 The reasons why people do not always act in accord with their attitudes has been the focus of much social psychological research as have the factors that account for why people change their attitudes and are persuaded by such influences as the media There is strong support for the view that attitude behavior consistency and persuasion cannot be well understood without reference to the wider social context in which we live Although attitudes are held by individuals they are social products to the extent that they are influenced by social norms and the expectations of others This book brings together an international group of researchers discussing private and public selves and their interaction through attitudes and behavior The effects of the social context on attitude behavior relations and persuasion is the central theme of this book which in its combination of theoretical exposition critique and empirical research should be of interest to both basic and applied social psychologists

Gender, Conflict and Reintegration in Uganda Allen

Kiconco, 2021-06-24 This book explores what happened when the tens of thousands of girls now women abducted by Lord's Resistance Army and inducted into their campaign of violence against the Ugandan government returned home. Drawing on extensive original research, the author considers the challenges which the formerly abducted women have encountered upon their return, the strategies which have been used to aid their reintegration, and the enduring stigma of abduction which they continue to suffer from. The author demonstrates that home, a place of hope and comfort, can also be a hostile environment which leaves formerly abducted women in precarious and vulnerable situations. The many shortcomings in the reintegration process have serious implications for the prospects of post-conflict reconstruction. Analysing reintegration as a long-term and dynamic process which involves complex negotiations and exchanges between hosting communities and formerly abducted women, this book will be of interest to scholars, policymakers, and practitioners working in the fields of post-conflict

reconstruction, African politics, and gender and conflict. Victors' Justice Danilo Zolo, 2020-01-28 *Victors' Justice* is a potent and articulate polemic against the manipulation of international penal law by the West, combining historical detail, juridical precision, and philosophical analysis. Zolo's key thesis is that contemporary international law functions as a two-track system: a made-to-measure law for the hegemon and their allies on the one hand, and a punitive regime for the losers and the disadvantaged on the other. Though it constantly advertised its impartiality and universalism, international law served to bolster and legitimize ever since the Tokyo and Nuremberg trials a fundamentally unilateral and unequal international order.

On the Margins of a Minority Ephraim Shoham-Steiner, 2014-01-06 Explores social attitudes towards individuals on the margins of medieval European Jewish society. In medieval Europe, the much larger Christian population regarded Jews as their inferiors, but how did both Christians and Jews feel about those who were marginalized within the Ashkenazi Jewish community? In *On the Margins of a Minority: Leprosy, Madness, and Disability among the Jews of Medieval Europe*, author Ephraim Shoham-Steiner explores the life and plight of three of these groups. Shoham-Steiner draws on a wide variety of late-tenth to fifteenth-century material from both internal Jewish as well as external non-Jewish sources to reconstruct social attitudes toward these others, including lepers, madmen, and the physically impaired. Shoham-Steiner considers how the outsiders were treated by their respective communities while also maintaining a delicate balance with the surrounding non-Jewish community. *On the Margins of a Minority* is structured in three pairs of chapters, addressing each of these three marginal groups. The first pair deals with the moral attitude toward leprosy and its sufferers; the second with the manifestations of madness and its causes as seen by medieval men and women, and the effect these signs had on the treatment of the insane; the third with impaired and disabled individuals, including those with limited mobility, manual dysfunction, deafness, and blindness. Shoham-Steiner also addresses questions of the religious meaning of impairment in light of religious conceptions of the ideal body. He concludes with a bibliography of sources and studies that informed the research.

including useful midrashic exegetical homiletic ethical and guidance literature and texts from responsa and halakhic rulings Understanding and exploring attitudes toward groups and individuals considered other by mainstream society provides us with information about marginalized groups as well as the inner social mechanisms at work in a larger society On the Margins of a Minority will appeal to scholars of Jewish medieval history as well as readers interested in the growing field of disability studies

Divine Election Eduardo J. Echeverria, 2016-09-14 This dogmatic study addresses two perennial questions First how do we reconcile God's sovereignty with human freedom not just in general but particularly with respect to the Church's full understanding of God's plan of salvation as a work of grace Second and equally crucial is the question of how we reconcile God's universal salvific will with the mystery of predestination election and reprobation The author of this study does theology within the normative tradition of confessional Catholicism and thus in the light of Catholic teaching But this study is also an ecumenical work indeed a work in receptive ecumenism and hence he

listens attentively to the reflections and arguments not only of his fellow Catholic theologians Matthias Joseph Scheeben and Hans Urs von Balthasar but also theologians of the Evangelical and Reformed traditions John Calvin Herman Bavinck Karl Barth and G C Berkouwer This book concludes with a Catholic synthesis regarding the doctrine of divine election in dogmatic and ecumenical perspective *God Interrupted* Benjamin Lazier, 2008 Could the best thing about religion be the heresies it spawns Leading intellectuals in interwar Europe thought so They believed that they lived in a world made derelict by God's absence and the interruption of his call In response they helped resurrect gnosticism and pantheism the two most potent challenges to the monotheistic tradition In *God Interrupted* Benjamin Lazier tracks the ensuing debates about the divine across confessions and disciplines He also traces the surprising afterlives of these debates in postwar arguments about the environment neoconservative politics and heretical forms of Jewish identity In lively elegant prose the book reorients the intellectual history of the era *God Interrupted* also provides novel accounts of three German Jewish thinkers whose ideas seminal to fields typically regarded as wildly unrelated had common origins in debates about heresy between the wars Hans Jonas developed a philosophy of biology that inspired European Greens and bioethicists the world over Leo Strauss became one of the most important and controversial political theorists of the twentieth century Gershom Scholem the eminent scholar of religion radically recast what it means to be a Jew Together they help us see how talk about God was adapted for talk about nature politics technology and art They alert us to the abiding salience of the divine to Europeans between the wars and beyond even among those for whom God was long missing or dead **Death, Desire and Loss in Western Culture** Jonathan Dollimore, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company

Measuring Manhood Melissa N. Stein, 2015-09-01 From the gay gene to the female brain and African American students insufficient hereditary background for higher education arguments about a biological basis for human difference have reemerged in the twenty first century *Measuring Manhood* shows where they got their start Melissa N Stein analyzes how race became the purview of science in nineteenth and early twentieth century America and how it was constructed as a biological phenomenon with far reaching social cultural and political resonances She tells of scientific experts who advised the nation on its most pressing issues and exposes their use of gender and sex differences to conceptualize or buttress their claims about racial difference Stein examines the works of scientists and scholars from medicine biology ethnology and other fields to trace how their conclusions about human difference did no less than to legitimize sociopolitical hierarchy in the United States Covering a wide range of historical actors from Samuel Morton the infamous collector and measurer of skulls in the 1830s to NAACP leader and antilynching activist Walter White in the 1930s this book reveals the role of gender sex and sexuality in the scientific making and unmaking of race **Black Children in Hollywood Cinema** Debbie Olson, 2017-03-14 This book explores cultural conceptions of the child and the cinematic absence of black children from contemporary Hollywood film Debbie Olson argues that within the discourse of children's studies and film scholarship in

relation to the conception of the child there is often little to no distinction among children by race the child is most often discussed as a universal entity as the embodiment of all things not adult not sexually corrupt Discussions about children of color among scholars often take place within contexts such as crime drugs urbanization poverty or lack of education that tend to reinforce historically stereotypical beliefs about African Americans Olson looks at historical conceptions of childhood within scholarly discourse the child character in popular film and what space the black child both African and African American occupies within that ideal

Andrew Fuller and the Search for a Faith Worthy of All Acceptation David Mark Rathel, 2024-08-22 The eighteenth century English minister Andrew Fuller lived a consequential life debating noteworthy contemporaries such as Thomas Paine and contributing to the pioneering international work of William Carey However his soteriology remains his most significant theological contribution Fuller explored the role that human

agency plays in salvation's reception and he offered substantive theological proposals that many religious historians now credit with advancing the Evangelical Revival. Fuller's work was both traditional and creative. He sought faithfulness to the broader Protestant tradition but developed that tradition in unique and contextually relevant ways. Despite Fuller's influence, much research into his life and work remains. **Andrew Fuller and the Search for a Faith Worthy of All Acceptation** examines heretofore underutilized primary sources related to Fuller's theological development. It attends to neglected texts produced by Fuller's opponents and mentors. Analysing these sources provides a fresh reading of Fuller's historical setting, one that contextualizes his theology and illuminates his constructive work on faith as a human response to the Gospel. This new interpretation allows scholars to discern more accurately the concepts that animated Fuller, the persons he sought to refute, and the sources on which he relied. This interpretation of Fuller challenges assumptions in contemporary scholarship and raises new questions for further research.

The Politics of the Police Robert Reiner, 2010-03-04 This fourth edition of Robert Reiner's popular and highly acclaimed text contains substantial revisions to take into account the recent and profound changes in the law, policy and organisation of policing.

Child Murder and British Culture, 1720-1900 Josephine McDonagh, 2003-12-08 In this wide-ranging study, Josephine McDonagh examines the idea of child murder in British culture in the eighteenth and nineteenth centuries. Analysing texts drawn from economics, philosophy, law, medicine, as well as from literature, McDonagh highlights the manifold ways in which child murder echoes and reverberates in a variety of cultural debates and social practices. She places literary works within social, political and cultural contexts, including debates on luxury, penal reform, campaigns, slavery, the treatment of the poor and birth control. She traces a trajectory from Swift's *A Modest Proposal* through to the debates on the New Woman at the turn of the twentieth century, by way of Burke, Wordsworth, Wollstonecraft, George Eliot, George Egerton and Thomas Hardy, among others. McDonagh demonstrates the haunting persistence of the notion of child murder within British culture in a volume that will be of interest to cultural and literary scholars alike.
