Refugee Repatriation Megan Bradley, 2013 **Refugee Repatriation** Megan Bradley, 2013-03-21 Voluntary repatriation is now the predominant solution to refugee crises yet the responsibilities states of origin bear towards their repatriating citizens are under examined Through a combination of legal and moral analysis and case studies of the troubled repatriation movements to Guatemala Bosnia and Mozambique Megan Bradley develops and refines an original account of the minimum conditions of a just return process The goal of a just return process must be to recast a new relationship of rights and duties between the state and its returning citizens and the conditions of just return match the core duties states should provide for all their citizens equal effective protection for security and basic human rights including accountability for violations of these rights This volume evaluates the ways in which different forms of redress such as restitution and compensation may help enable just returns and traces the emergence and evolution of international norms on redress for refugees **Ethics and**

Practice of Refugee Repatriation Mollie Gerver, 2018-11-14 Mollie Gerver considers when bodies such as the UN government agencies and NGOs ought to help refugees to return home Drawing on original interviews with 172 refugees before and after repatriation she resolves six moral puzzles arising from repatriation using the methods of analytical philosophy to provide a more ethical framework **Peace, Preference, and Property** Sandra F Joireman, 2022-11-29

Growing numbers of people are displaced by war and violent conflict In Ukraine Afghanistan Ethiopia Myanmar Syria and elsewhere violence pushes civilian populations from their homes and sometimes from their countries making them refugees In previous decades millions of refugees and displaced people returned to their place of origin after conflict or were resettled in countries in the Global North Now displacements last longer the number of people returning home is lower and opportunities for resettlement are shrinking More and more people spend decades in refugee camps or displaced within their own countries raising their children away from their home communities and cultures In this context international policies encourage return to place of origin Using case studies and first person accounts from interviews and fieldwork in post conflict settings such as Uganda Liberia and Kosovo Sandra F Joireman highlights the divergence between these policies and the preferences of conflict displaced people Rather than looking from the top down at the rights that people have in international and domestic law the perspective of this text is from the ground up examining individual and household choices after conflict Some refugees want to go home some do not want to return some want to return to their countries of origin but live in a different place and others are repatriated against their will when they have no other options Peace Preference and Property suggests alternative policies that would provide greater choice for displaced people in terms of property restitution and solutions to displacement *Forced Migration, Reconciliation, and Justice* Megan Bradley, 2015-06-01 At the start of 2014 more people were displaced globally by conflict and human rights violations than at any time since the Second World War Although many of those displaced from countries such as Syria Iraq Colombia Kenya and Sudan have survived grave

human rights abuses that demand redress the links between forced migration justice and reconciliation have historically received little attention This collection addresses the roles of various actors including governments UN agencies NGOs and displaced persons themselves raising complex questions about accountability for past injustices and how to support reconciliation in communities shaped by exile Forced Migration Reconciliation and Justice draws on a variety of disciplinary perspectives including political science law anthropology and social work The chapters range from case studies in countries such as Bosnia Cambodia Lebanon Turkey East Timor Kenya and Canada to macro level analyses of trends interconnections and theoretical dilemmas Furthermore the authors explore the contribution of trials and truth commissions as well as the role of religious practices oral history theatre and social interactions in addressing justice and reconciliation issues in affected communities In doing so they provide fresh insight into emerging debates at the centre of forced migration and transitional justice Exploring critical issues in political science and development studies this provocative collaboration unites leading researchers policymakers human rights advocates and aid workers to examine the theoretical and practical relationships between displacement transitional justice and reconciliation Contributors include Ian B Anderson Department of Foreign Affairs Trade and Development Canada John Bell Toledo International Center for Peace Chaloka Beyani London School of Economics Mateja Celestina Coventry University Ayse Bet I elik Sabanci University Mick Dumper Exeter University Roger Duthie International Center for Transitional Justice Huma Haider University of Birmingham Nancy Maroun United Nations Development Programme Office in Lebanon James Milner Carleton University Mike Molloy University of Ottawa Paige Morrow Frank Bold Lisa Ndejuru Concordia University Thien Huong T Ninh California State University Dominguez Hills Anneke Smit University of Windsor Roberto Vidal Lopez Pontifica Universidad Luiz Vieira formerly with IOM Nicole Waintraub University of Ottawa Jennifer Winstanley lawyer

The Political Philosophy of Refuge David Miller,Christine Straehle,2021-05-20 How to assess and deal with the claims of millions of displaced people to find refuge and asylum in safe and prosperous countries is one of the most pressing issues of modern political philosophy In this timely volume fresh insights are offered into the political and moral implications of refugee crises and the treatment of asylum seekers The contributions illustrate the widening of the debate over what is owed to refugees and why it is assumed that national state actors and the international community owe special consideration and protection Among the specific issues discussed are refugees rights and duties refugee selection whether repatriation can be encouraged or required and the ethics of sanctuary policies

The Oxford Handbook of Refugee and Forced Migration Studies Elena Fiddian-Qasmiyeh,Gil Loescher,Katy Long,Nando Sigona,2014-06-12 Refugee and Forced Migration Studies has grown from being a concern of a relatively small number of scholars and policy researchers in the 1980s to a global field of interest with thousands of students worldwide studying displacement either from traditional disciplinary perspectives or as a core component of newer programmes across the Humanities and Social and Political Sciences Today the field encompasses both rigorous academic research which may or

may not ultimately inform policy and practice as well as action research focused on advocating in favour of refugees needs and rights This authoritative Handbook critically evaluates the birth and development of Refugee and Forced Migration Studies and analyses the key contemporary and future challenges faced by academics and practitioners working with and for forcibly displaced populations around the world The 52 state of the art chapters written by leading academics practitioners and policymakers working in universities research centres think tanks NGOs and international organizations provide a comprehensive and cutting edge overview of the key intellectual political social and institutional challenges arising from mass displacement in the world today The chapters vividly illustrate the vibrant and engaging debates that characterize this rapidly expanding field of research and practice

Reversing Ethnic Cleansing through Minority Returns Rebecca A. Brubaker, 2025-02-07 Ethnic conflict is not new Nor are international attempts to prevent or contain it Reversing Ethnic Cleansing through Minority Returns examines whether and how ethnic religious and political minorities should be returned and reintegrated after conflict Its main focus is the unprecedented international attempt to re mix ethnic groups in Bosnia following the war The book scrutinizes the puzzle of why states and international organizations pursued a re mixing policy in response to ethnic cleansing in Bosnia There were multiple policy alternatives on the table at the start of the conflict Compared to these re mixing was an unlikely choice politically it was risky locally it was unpopular financially it was expensive and practically it ultimately failed Yet Washington and the United Nations chose to prioritize re mixing nonetheless justifying their choice on the grounds that it was essential for reversing ethnic cleansing and thereby re establishing a multi ethnic Bosnia More generally this book offers insights into how refugee return policies emerge evolve and solidify in a European context In doing so it contributes to a better understanding of how normative discourses transform into policy as well as offers policy recommendations for approaching the challenge of facilitating returns and reintegration following a war s end Understanding how and why such unintended norm diffusion emerged is a crucial addition to the historical record and provides an important correction to the lessons normally drawn from this precedent breaking case

Democratic Citizenship and the Free Movement of People Willem Maas, 2013-09-05 Democratic states guarantee free movement within their territory to all citizens as a core right of citizenship Similarly the European Union

guarantees EU citizens and members of their families the right to live and the right to work anywhere within EU territory. Such rights reflect the project of equality and undifferentiated individual rights for all who have the status of citizen but they are not uncontested. Despite citizenship's promise of equality, barriers, incentives, and disincentives to free movement make some citizens more equal than others. This book challenges the normal way of thinking about freedom of movement by identifying the tensions between the formal ideals that governments' laws and constitutions expound and actual practices which fall short. Individual states and the European Union have either created or permitted the creation of direct and indirect barriers to mobility that undermine the promise of freedom of movement. The volume identifies these barriers, explains why they have arisen, discusses why they are difficult to remove, and explores their consequences. Joseph Carens, University of Toronto.

Strangers in Our Midst David Miller, 2016-05-09. How should Western democracies respond to the many millions of people who want to settle in their societies? Economists and human rights advocates tend to downplay the considerable cultural and demographic impact of immigration on host societies. Seeking to balance the rights of immigrants with the legitimate concerns of citizens, *Strangers in Our Midst* brings a bracing dose of realism to this debate. David Miller defends the right of democratic states to control their borders and decide upon the future size, shape, and cultural make-up of their populations. A cool dissection of some of the main moral issues surrounding immigration and worth reading for its introductory chapter alone. Moreover, unlike many progressive intellectuals, Miller gives due weight to the rights and preferences of existing citizens and does not believe an immigrant has an automatic right to enter a country. Full of balanced judgments and tragic dilemmas. David Goodhart, *Evening Standard*. A lean and judicious defense of national interest. In Miller's view, controlling immigration is one way for a country to control its public expenditures, and such control is essential to democracy. Kelefa Sanneh, *New Yorker*.

Refugee Solutions in the Age of Global Crisis David K. Androff, 2022. *Refugee Solutions in the Age of Global Crisis* tackles the world's three main policies for addressing refugee crises: voluntary repatriation, local integration, and third-country resettlement. These policies were set up by the UN in the aftermath of World War II and they have not been updated since. In fact, they have been slowly breaking down. Using detailed contemporary case studies, this book analyzes these policies from a social work perspective with special attention to human rights, integration, and sustainable development.

Transnational Community Mobilization and Transformation, 2010-2020 Abdulkadir Osman Farah, 2024-08-13. The world is increasingly complex and ever-changing. One of these changes involves the increasing transnationalization by diverse sociopolitical groups, institutions including the state, the corporate, as well as different transnational communities including professionalized social groups. Such groups also include transnational communities with migrant, refugee, history, and background. These communities often link their local host environments with their homeland origins in multiple ways. They often do such activities through diversified transnationally situational and context-based sociopolitical engagements and mobilizations toward and with multiple social, political, and economic actors. Their main aim

and purpose is to achieve and maintain recognition and dignified lives as individuals groups as well as communities Through resisting exclusion and trying to help the excluded they often approach transnational issues with cautious responsibility and cooperation as well as collaboration with multiple public civic and private actors

Refugees and the Ethics of Forced Displacement Serena Parekh, 2016-11-25 This book is a philosophical analysis of the ethical treatment of refugees and stateless people a group of people who though extremely important politically have been greatly under theorized philosophically The limited philosophical discussion of refugees by philosophers focuses narrowly on the question of whether or not we as members of Western states have moral obligations to admit refugees into our countries This book reframes this debate and shows why it is important to think ethically about people who will never be resettled and who live for prolonged periods outside of all political communities Parekh shows why philosophers ought to be concerned with ethical norms that will help stateless people mitigate the harms of statelessness even while they remain formally excluded from states The Open Access version of this book available at <https://doi.org/10.4324/9781315883854> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
