National Task Force on Federal Legislation Imposing Reporting Requirements and Expectations on the Criminal Justice System (U.S.), 2000 **Caught** Marie Gottschalk, 2016-02-16 A major reappraisal of crime and punishment in America. The huge prison buildup of the past four decades has few defenders yet reforms to reduce the numbers of those incarcerated have been remarkably modest. Meanwhile, an ever-widening carceral state has sprouted in the shadows, extending its reach far beyond the prison gate. It sunders families and communities and reworks conceptions of democracy, rights, and citizenship, posing a formidable political and social challenge. In *Caught*, Marie Gottschalk examines why the carceral state remains so tenacious in the United States. She analyzes the shortcomings of the two dominant penal reform strategies: one focused on addressing racial disparities, the other on seeking bipartisan, race-neutral solutions centered on reentry, justice reinvestment, and reducing recidivism. With a new preface evaluating the effectiveness of recent proposals to reform mass incarceration, *Caught* offers a bracing appraisal of the politics of penal reform. **Violent Offenders** Matt DeLisi, Peter John

Conis, 2008 *Violent Offenders: Theory, Research, Public Policy, and Practice* Provides the latest information to help students understand the many different types of violent offenders we hear about in the media daily: from homicide and sex offenders to financial predators and street criminals to serial killers and career criminals. The authors have compiled original scholarship from an international collection of applied and academic criminologists to provide students with a realistic and cutting-edge view of why people commit violent crimes and how our criminal justice system as a whole responds to these offenders and these violent acts. The text is divided into three sections. Part One covers the theoretical and disciplinary foundations of the study of violent behavior, spanning the disciplines of sociology, psychology, biology, and neuroscience. Part Two discusses empirical and topical linkages to criminological subjects.

Including Homicide Offenders And Victims Sex Offenders And Gang Members Part Three Explores Public Policy And Practical Applications Describing The Various Ways That Criminal Justice Systems Respond To Violent Offenders From The Insightful Perspectives Of People Who Work Among Violent Offenders On A Daily Basis
