Wiest,Jafeth E. Sanchez,Heather Glynn Crawford?Ferre,2017-06-01 Science technology engineering and mathematics STEM disciplines play a pivotal role in societal progress and economic prosperity in addition to enhancing individual lives However U S students lack strong STEM performance in an international context The pool of STEM proficient workers is thus insufficient to fuel the nation with females being one group that is noticeably absent Out of school time OST programs which are on the rise are increasingly suggested as a way to support and encourage females in STEM Data collected from participants in OST programs have shown improved achievement interest and confidence in STEM as well as greater awareness of STEM role models and careers Out of School Time STEM Programs for Females Implications for Research and Practice features seven OST STEM programs for females from across the United States that run one week to one year in length In this book the chapter authors describe their programs the effectiveness of those programs and practical implications of their program evaluation data This book is the first of its kind to offer researchers educators school administrators policy makers and others detailed insight into the promise and practice of out of school time STEM programs for females Programming Languages and Systems Jan Vitek,2015-03-31 This book constitutes the proceedings of the 24th European Symposium on Programming ESOP 2015 which took place in London UK in April 2015 held as Part of the European Joint Conferences on Theory and Practice of Software ETAPS 2015 The 33 papers presented in this volume were carefully reviewed and selected from 113 submissions *10 Solved Papers of IBPS Clerk Prelim & Mains Exams (2015-19)* Disha Experts,2020-09-04 *A World with Robots* Maria Isabel Aldinhas Ferreira,Joao Silva Sequeira,Mohammad Osman Tokhi,Endre E. Kadar,Gurvinder Singh Virk,2017-01-05 This book contains the Proceedings of the International Conference on Robot Ethics held in Lisbon on October 23 and 24 2015 The conference provided a multidisciplinary forum for discussing central and evolving issues concerning safety and ethics that have arisen in various contexts where robotic technologies are being applied The papers are intended to promote the formulation of more precise safety standards and ethical frameworks for the rapidly changing field of robotic applications

The conference was held at Pavilh o do Conhecimento Ci ncia Viva in Lisbon and brought together leading researchers and industry representatives promoting a dialogue that combines different perspectives and experiences to arrive at viable solutions for ethical problems in the context of robotics The conference topics included but were not limited to emerging ethical safety legal and societal problems in the following domains Service Social Robots Robots performing tasks in human environments and involving close human robot interactions in everyday households robots for education and entertainment and robots employed in elderly and other care applications Mobile Robots Self driving vehicles autonomous aircraft trains cars and drones Robots used in medicine and for therapeutic purposes Robots used in surveillance and military functions

ECGBL 2018 12th European Conference on Game-Based Learning Dr Melanie Ciussi,2018-10-04 **Artificial Intelligence and Intellectual Property** Jyh-An Lee,Reto Hilty,Kung-Chung Liu,2021-02-25 Artificial Intelligence AI has become omnipresent in today s business environment from chatbots to healthcare services to various ways of creating useful information While AI has been increasingly used to optimize various creative and innovative processes the integration of AI into products services and other operational procedures raises significant concerns across virtually all areas of intellectual property IP law While AI has drawn extensive attention from IP experts globally this is the first book providing a broad and comprehensive picture from the perspectives of the very nature of AI technology its commercial implications its interaction with different kinds of IP IP administration software and data its social and economic impact on the innovation policy and ultimately AI s eligibility as a legal entity *Applied Computer Science for GGOS Observatories* Alexander N.J. Neidhardt,2017-08-08 This book combines elementary theory from computer science with real world challenges in global geodetic observation based on examples from the Geodetic Observatory Wettzell Germany It starts with a step by step introduction to developing stable and safe scientific software to run successful software projects The use of software toolboxes is another essential aspect that leads to the application of generative programming An example is a generative network middleware that simplifies communication One of the book s main focuses is on explaining a potential strategy involving autonomous production cells for space geodetic techniques The complete software design of a satellite laser ranging system is taken as an example Such automated systems are then combined for global interaction using secure communication tunnels for remote access The network of radio telescopes is used as a reference Combined observatories form coordinated multi agent systems and offer solutions for operational aspects of the Global Geodetic Observing System GGOS with regard to Industry 4 0 **Documents Provided to the Select Committee on the Events Surrounding the 2012 Terrorist Attack in Benghazi** , Teaching and learning human-computer interaction (HCI): Current and emerging practices Audrey Girouard,Anirudha Joshi,Jin Kang,Craig M.
