For employers staying on top of these changes is essential to running an efficient fair workplace and heading off expensive lawsuits. *The Employer's Legal Handbook* covers all the employment law issues you need to know about including the latest rules and best practices when it comes to applications, interviews and hiring, workplace health and safety, wage and hour laws, remote workers, health care and other employee benefits, employee taxes and payroll, family and medical leave, employee privacy, illegal harassment and discrimination, and downsizing and layoffs. The 17th edition includes updated employment laws for all 50 states and explains the latest developments in employment law including how to manage remote workers.

The Economic Value of Landscapes C. Martijn van der Heide, Willem Heijman, 2013. This book aims to explore the avenue of landscape economics and provides the building blocks from different scientific disciplines for an economic analysis of landscapes. What exactly constitutes and determines the value of a landscape? It focuses on the value of landscapes in its broadest sense, thereby covering a variety of topics including stakeholder involvement in landscape design, landscape governance, and landscape perceptions from different countries. Merely saying that landscapes have value or are important is not sufficient, not when resources are scarce and have alternative uses. Measuring and quantifying the economic value of changes in landscapes would help ensure that landscape management decisions are both economically rational and sound.

The Philosopher's Stone for Sustainability Yoshiki Shimomura, Koji Kimita, 2012-09-26. Industrial Product Service Systems (IPS2) which is defined as an integrated industrial product and service offering that delivers value in use, has expanded rapidly over the last decade. IPS2 has allowed us to

achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher s stone for solving these issues Following the pattern of conferences held in Cranfield in 2009 Link ping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8 9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year s conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas

Industrial Relations in Small Companies Christian Dufour, 2007 Reference is often made to small companies but little is known about them especially regarding industrial relations How can small companies be defined Is their small size a sufficient feature for them to be considered the same If they are different from each other what makes them so Is the distinction between them and other companies big ones relevant In what way is life organised in such units where employer and employees are in very close contact with each other In order to answer these questions the authors of this innovative book carried out surveys together in France Sweden and Germany They met employers employees union members and industrial relations specialists Comparisons of these three national cases show that small companies do have common features that transcend frontiers They do however also have national characteristics They therefore warrant being analysed and understood in something other than merely negative terms It thus appears that small companies are not so far off resembling big ones
