Internship Reflection Papers

While working for Recology in San Francisco, CA, I had the unique opportunity to lead my own pilot project on event diversion auditing and combined traditional office work with field audits, education and outreach, and job shadowing. My overall intern experience helped prepare me for my Senior Integrative Project as well as prepare me for the working world once I graduate Connecticut College.

Tracing its roots back to the 1930's, Recology sees itself as a resource recovery company instead of a garbage company. Paired with their mission of achieving Waste Zero (no material sent to the landfill), Recology stands out in the waste management industry as a uniquely environmental force for good. With its headquarters in San Francisco, Recology has expanded from the Bay Area up into dozens of cities in Northern California, Oregon, and Washington. Because of their environmental focus, Recology sometimes has more expensive bids for municipal waste hauling contracts and must win over the hearts and minds of their potential new customers with their impeccable track record of safety, landfill diversion, and popular programing like the Artist in Residency Program and volunteer days.

In San Francisco, Recology is the only waste hauler permitted to operate in the city, so the connections between the San Francisco Department of Environment and Recology are strong, and the two often collaborate. This also means that every citizen, household, apartment building, business, restaurant, hotel, and event operating in San Francisco is Recology's customer. In order to meet city mandated landfill diversion goals, Recology audits all of their customers as needed to assess the material quality in the waste stream, to see if people are correctly sorting their compost and recycling, and to conduct educational outreach visits.

Prior to my internship, Recology had never audited event material before, so I was the first and only Special Event Diversion Auditor. My mentor who designed this project for me, Eric Ahnmark, has a background in event greening services and had always wanted to audit special events in San Francisco to assess sorting behavior and material quality. The crux of my work focused on this question: what is the recoverability of the waste stream coming from events in San Francisco? I would call Event Producers on the phone to do pre-event consultations, manage staff and volunteer training when possible, go to the event site to conduct my audit, and finally communicate audit results back to the event producer.

The work itself was challenging at first as I learned how to talk to customers, familiarized myself with San Francisco's municipal policy, went on a facility tours, and attended a three-day seminar called Recycling 101. I shadowed my mentor for a full week on commercial audits to businesses and apartments in San Francisco.

For my personal project, I conducted all of my week's audits each Sunday for the bulk of the summer. I was given permission to drive a company truck to each event location, and had access to safety gear. Event Producers and staff were aware of my presence and would often come up and ask questions while I worked. While in the containers and debris boxes, I took copious notes
