The Journal of the Assembly During the ... Session of the Legislature of the State of California California. Legislature. Assembly, 1969 **Journal of the Assembly, Legislature of the State of California** California. Legislature. Assembly, 2011 **Handbook of Children's Rights** Martin D. Ruck, Michele Peterson-Badali, Michael Freeman, 2016-12-08

While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin over the past several decades there has been a substantial increase in both social and political commitment to children's rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults In addition there has been a noticeable shift in orientation from a focus on children's protection and provision to an emphasis on children's participation and self determination With contributions from a wide range of international scholars the Handbook of Children's Rights brings together research theory and practice from diverse perspectives on children's rights This volume constitutes a comprehensive treatment of critical perspectives concerning children's rights in their various forms Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children's rights including the best interests of the child evolving capacities of the child states rights versus children's rights rights of children versus parental or family rights children as citizens children's rights versus children's responsibilities and balancing protection and participation In addition to its multidisciplinary focus the handbook includes perspectives from social science domains in which children's rights scholarship has evolved largely independently due to distinct and seemingly competing assumptions and disciplinary approaches e g childhood studies developmental psychology sociology of childhood anthropology and political science The handbook also brings together diverse methodological approaches to the study of children's rights including both quantitative and qualitative perspectives and policy analysis This comprehensive cosmopolitan and timely volume serves as an important reference for both scholarly and policy driven interest in the voices and perspectives of children and youth *Journal of the House of Representatives of the United States* United States. Congress. House, 2009

Some vols include supplemental journals of such proceedings of the sessions as during the time they were depending were ordered to be kept secret and respecting which the injunction of secrecy was afterwards taken off by the order of the House

NFB Kids Brian J. Low, 2006-01-01 Imagine a society that exists solely in cinema this book explores exactly that Using a half century of films from the archival collection of the National Film Board NFB Kids Portrayals of Children by the National Film Board of Canada 1939 1989 overcomes a long standing impasse about what films may be credibly said to document Here they document not reality but social images preserved over time the NFB Society an evolving cinematic representation of Canadian families schools and communities During the postwar era this society in cinema underwent a profound change in its child rearing and schooling philosophies embracing modern notions based upon principles espoused by the American mental hygiene movement Soon after the introduction of these psychological principles into NFB homes in 1946 and schools

in 1956 there was a subtle transformation in adult child relations which progressively over time narrowed the gulf of power between generations and diminished the socializing roles of the NFB parents and teachers NFB Kids is a pioneering study within a new field of academic research cinema ethnography It adds to the growing body of knowledge about the function and the considerable impact of psychiatry and psychology in the post war social reconstruction of Canadian society and social history It will be of interest to academics over a broad spectrum of disciplines and to anyone thinking about the advancing arbitrary power of the cinematic state **Annual Assembly Journal** Church of the Nazarene.
