Prehospital Behavioral Emergencies and Crisis Response American Academy of Orthopaedic Surgeons (AAOS), Dwight A. Polk, Jeffrey T. Mitchell, 2008-12-09 Listen to a podcast with author Dwight Polk. *Prehospital Behavioral Emergencies and Crisis Response* offers prehospital providers and mental health professionals a comprehensive resource on effectively handling behavioral emergencies ranging from large scale disasters to substance related emergencies to psychotic disorders. This timely text also provides prehospital providers with suggestions for coping with job related stress. The text incorporates well known information gathering tools such as SAMPLE and OPQRST as well as two essential new tools for evaluating patients in a behavioral emergency: the SEA 3, a brief and simple assessment tool designed specifically for gathering information about a patient's mental status and the SAFER R model, a simple yet thorough tool designed to help the emergency responder devise a quick and easy treatment plan for helping those in crisis. In the Field boxes are scattered throughout the chapters and highlight vital information, tips and best practices that first responders can apply during an emergency call. End of chapter material provides vocabulary, chapter summaries and quizzes that allow the reader to check his or her knowledge and comprehension of the chapter. Important tips for applying concepts to real life situations first responders encounter in the field including step by step recommendations for conducting assessments. Quiz questions to evaluate students' understanding of the material. Crucial vocabulary that first responders should know when responding to behavioral emergencies. Easy to follow methods for quickly evaluating behavioral emergencies using familiar information gathering tools. Part of our Continuing Education Series, instructors can use the manual and instructor resources for specific classes on behavioral emergencies or as a supplement to existing EMT-B, EMT-I or paramedic classes. 2009, 298 pages.

NIMS--Incident Command System for the Fire Service NIMS--ICS for the FS-Student Manual, 2006

Cert Basic Training Instructor's Guide Government Publishing Office, 2017-11-15 FEMA's Community Emergency Response Team (CERT) Basic Training Instructor Guide is a critical program in the effort to engage everyone in America in making their communities safer, more prepared and more resilient when incidents occur. Community based preparedness planning allows you and others interested from your community to prepare for and respond to anticipated disruptions and potential hazards following a disaster. As individuals we can prepare our homes and families to cope during that critical period. Through pre event planning, neighborhoods and worksites can also work together to help reduce injuries, loss of lives and property damage. Neighborhood preparedness will enhance the ability of individuals and

neighborhoods to reduce their emergency needs and to manage their existing resources until professional assistance becomes available. The purpose of the CERT Basic Training is to provide you and others in your community who complete this course with the basic skills that they will need to respond to their community's immediate needs in the aftermath of a disaster when emergency services are not immediately available. This course will be beneficial to individuals who desire the skills and knowledge required to prepare for and respond to a disaster. Instructors for these community courses usually range from skilled fire and rescue instructors that have completed the CERT Train the Trainer course and are knowledgeable about the CERT model, different types of hazards that present greatest risks for communities, local building structures that may present greatest hazard in disaster events, community's emergency operation plans, and licensed Paramedics or Emergency Medical Technicians and nurses for providing hands-on knowledge relating to disaster medical operations. Related items: FEMA's companion product CERT Basic Training Participant Manual can be found here <https://bookstore.gpo.gov/products/sku/027-002-00627-5>. Emergency Management First Responders publications can be found here <https://bookstore.gpo.gov/catalog/security-defense-law-enforcement/emerg>. Audience: As each CERT is organized and trained in accordance with standard operating procedures developed by the sponsoring agency, its members select an Incident Commander/Team Leader (IC/TL) and an alternate and identify a meeting location or staging area to be used in the event of a disaster. This publication is ideal for the chosen IC/TL and members of the CERT may want to consult this manual to understand the responsibilities of the IC/TL.

Disaster Management Handbook Jack Pinkowski, 2008-01-22. Record-breaking hurricane seasons, tornados, tsunamis, earthquakes, and intentional acts of mass casualty violence give lie to the delusion that disasters are the anomaly and not the norm. Disaster management is rooted in the fundamental belief that we can protect ourselves. Even if we cannot control all the causes, we can prepare and respond. We Emergency Management and Tactical Response Operations Thomas D. Phelan, 2011-04-08. Is emergency management education undoing an age-old tradition in the American Fire Service? Has the time arrived to educate emergency managers in college classrooms rather than in twenty years of tactical operations experience? Over one hundred forty-three (143) institutions of higher education are now offering certificate or degree programs in emergency management with no tactical operations experience required for admission. Resistance by veteran law enforcement officers and fire fighters may have to be overcome if we are to prepare emergency managers with required skill sets. Dr. Tom Phelan explores the skills being taught to emergency management students and addresses the concerns of experienced first responders in accepting their leadership. Discusses the value of emergency management education in the post-9/11 world. Makes clear the need for educating emergency managers to prepare them for emergency manager leadership. Helps bridge the gap between emergency management and first responders. Should be required reading in every college emergency management curriculum. The book is clear, concise, and an easy read.
