Fish,2012-12-06 Richard Fox Chairman Scientific Programme Committee Between 25th and 29th September 1988 243 people who either apply or research the use of computers in fermentation gathered together at Robinson College Cambridge UK They came from 30 countries The conference brought together two traditions Firstly it continued the series on Computer Applications in Fermentation Technology ICCAFT inaugurated by Henri Blanchere in Dijon in 1973 and carried forward in Philadelphia and Manchester Secondly it brought the expertise of the many members of the International Federation of Automatic Control IFAC who focused their attention on biotechnology at Noordwijkerhout in the Netherlands in December 1985 I am happy to say that the tradition carries on and a successor meeting will hopefully take place in the USA in 1991 If you find these proceedings useful or stimulating then we hope to see you there We set out to make ICCAFT4 a close knit friendly conference We housed all who cared to in Robinson College itself and organised no parallel sessions Because we the organisers experience difficulty with the jargon of our colleagues from other disciplines we asked Bruce Beck to present a breakfast tutorial on modern control and modelling techniques and we set up informal panel discussions after dinner on two evenings Neville Fish chaired a forum on the microbiological principles
