

TASK 2: INSTRUCTION COMMENTARY

Respond to the prompts below (no more than 6 single-spaced pages, including prompts) by typing your responses within the brackets following each prompt. Do not delete or alter the prompts. Commentary pages exceeding the maximum will not be scored. You may insert no more than 2 additional pages of supporting documentation at the end of this file. These pages may include graphics, texts, or images that are not clearly visible in the video or a transcript for occasionally inaudible portions. These pages do not count toward your page total.

1. Which lesson or lessons are shown in the video clips? Identify the lesson(s) by lesson plan number.

[Video Clip #1 shows an excerpt from Lesson 2, and Video Clip #2 shows an excerpt from Lesson 5.]

2. **Promoting a Positive Learning Environment**

Refer to scenes in the video clips where you provided a positive learning environment.

- a. How did you demonstrate mutual respect for, rapport with, and responsiveness to students with varied needs and backgrounds, and challenge students to engage in learning?

[In both video clips, I demonstrated respect for and rapport with students by calling on them by name, looking them in the eyes, and generally giving them a pleasant demeanor. In Video Clip #1, I complimented their singing in the previous lesson at 0:04, telling them they “were doing some awesome, incredible singing”, and tied it to the central focus of the lesson by inviting them review what they implemented in terms of vocal technique in order to achieve their quality of sound.

At 0:19, one of the students listed “lifting our zygomatics” as one technique that they implemented in order to sing well in the previous lesson. Even though that was not the exact answer I was looking for, I affirmed that student by repeating her answer for the rest of the class and giving her positive feedback by saying “yes, very nice” before transitioning to another question.

I asked the class to explain to me how to achieve a proper facial embouchure. At 2:34, a student raised her hand to give the answer “peach-face”, but was unable to be heard by the rest of the class due to off task conversation. To affirm this student’s response and reengage the rest of the class with the discussion at hand, I asked the student to “say that one more time with everyone listening”, which redirected off task behavior back to the current activity and allowed the student to effectively address the rest of the class.

During a discussion about the difference in sound between singing with and without proper facial embouchure, I noticed students who were off tasking and talking with each other at 5:52. In order to reengage them with the current activity and promote positive peer behavior, I politely asked the students, “Do you guys have a question?” Their lack of response to my question indicated to me that they were not talking about the current topic, so I then reminded them to “please stop talking” before returning to the discussion.

At 7:03, I noticed a student sitting and looking unwell during a standing activity. In order to demonstrate sensitivity to this student’s needs, I ask her if she “need[s] to go to the office?” She responds, “no”, so I continued giving instruction and allowed her to sit for as long as she needed.
