

Multiple Subject and Single Subject

Step 1: Plan—Part B: Learning Segment Template

Directions: For each of the 3 to 5 lessons of the learning segment, briefly describe the following components in the tables provided.

- Content/Content Standards and/or Content Frameworks being addressed:** Identify the content area, California Content Standards and/or Curriculum Frameworks, and California English Language Development Standards (CA ELD Standards) as applicable.
- Learning goals:** Write learning goal(s) based on the California Content Standards you identified and, if appropriate, ELD Standards for each lesson.
- Evidence and assessments:** Describe how you will determine that the students have achieved the learning goal(s) in each lesson. Identify all assessment activity for each lesson, including informal assessments (checks for understanding), student self-assessment, and formal assessment.
- How does ELD fit?** Include an explanation of how each lesson links to where students are currently (academically, or with respect to interests, age, and/or developmental issues), or other learning issues, and how the lessons build on prior content learning and one another.
- Learning activities:** Use bullet points to outline what students will do and how you will ensure they have equitable access to content (e.g., learning activities students will do, how, when appropriate, your students will use educational technology; how you will affirm and validate individual student needs and learning needs).
- Instructional strategies:** Use bullet points to outline what you will do to provide instruction (e.g., modeling, scaffolding, modeling, demonstrating, reading). Identify essential key questions you plan to ask students during the lesson.
- Grouping strategies:** Describe how you will group students for learning.
- English language development (ELD) and academic language development (ALD):** Describe the language demands (reading, writing, listening, speaking) of each lesson and how you will support the students in developing their academic language development and address the specific needs of English learners and Standard English learners. Describe academic language development considerations and specific adaptations you plan to provide to address ALD.
- Instructional adaptations:** Describe what you will do to support the range of learners in your class who may need adaptations that might support English learners, Standard English learners, students with identified special needs, and other students who need additional scaffolding to address academic or well-being needs.
- Resources and materials to support learning:** Explain why you chose particular resources and materials to support learning and language demands in the learning segment.
