**Training for On-board Bus Electronics** John J. Schiavone, National Research Council (U.S.). Transportation Research Board, Transit Cooperative Research Program, 2002 The purpose is to document training practices at a sampling of transit agencies concerning the application and repair of advanced on board electronics so that key personnel have the knowledge needed to make informed decisions The objectives of the synthesis were to examine the level of E E training being provided by transit agencies to highlight innovative and effective training approaches and based on findings from the conclusions to provide agencies with the opportunity to improve their training programs Because maintenance is an area that is often overlooked this synthesis gives it the greatest focus *Travel Survey Manual* ,1996 **Manpower Development:**

James McKnight, 1976 Research in Education ,1974 House of Commons - Transport Committee: Access to Transport For Disabled People - Volume I: HC 116 Great Britain: Parliament: House of Commons: Transport Committee, 2013-09-17 In the UK some 11.5m people already live with a recognised disability and more than a fifth of them experience some difficulty when using transport networks So it is essential that the Department for Transport delivers an ambitious Accessibility Action Plan Changes made ahead of the 2012 Paralympic Games delivered access for disabled people to significantly more parts of the public transport network for the first time and highlighted the

immense value of such improvements for all Yet a year later there is a risk that some of the momentum from London 2012 is being lost because further key accessibility improvements planned have been watered down or abandoned The Committee s recommendations include imposing penalties on bus operators who claim to offer accessible routes but then fail to provide accessible buses the phased introduction of audio visual information systems on all buses over the next ten years phasing out the need for disabled travellers having to book organised assistance in advance financial incentives to encourage investment in fully accessible vehicles by taxi and private care hire vehicle operators and a change to EU rules so that in future airlines are required to allow carers to travel free of charge when the airline judges a disabled person incapable of travelling independently The Cabinet Office should convene a working group of ministers and officials to improve cross government working on accessibility in order to secure the full benefits to be gained from widening disabled people s access to employment and training healthcare and wider participation in all parts of society

Moffat, Transit Cooperative Research Program, National Research Council (U.S.). Transportation Research Board, 1996 Addresses the roles and responsibilities of bus field supervisors including emerging concerns about how to improve the relationship between supervisors and bus operators while placing supervisors in a more positive role how to obtain a greater return from employee productivity with tightening budgets and declining ridership and how to improve customer service *Alcohol and Highway Safety: a Bibliography* L.
