Radcliffe Hutton,1919 **I Solemnly Swear** Kenton V. Smith,Micheal T. Hurley,2004-04-26 Smeared by cheap innuendo and false accusations alleging he is responsible for having allowed a bomb aboard Pan Am 103 Micheal T Hurley career law enforcement veteran faces a dilemma as real as his lifetime savings bet everything that truth would win out in a court of law or just surrender to that which he knows to be wrong Succumb or fight Capitulate or resist I Solemnly Swear captures his answer to that dilemma and presents a diverse group of heroes and traitors lawmen and outlaws the innocent and the guilty who bounce between Seattle Larnaca London Washington DC Frankfurt and Fort Lauderdale In an international game of cat and mouse Hurley spends his last three years as a DEA Supervisory Special Agent being jerked around by a media that is all too willing to criticize the US Government and to mar Hurley s reputation as a competent international narcotics agent This is his story *Squid Cinema From Hell* William Brown,2020-04-02 Here be Kraken The Squid Cinema From Hell draws upon

writers like Vilem Flusser Donna J Haraway Graham Harman and Eugene Thacker to offer up a critical analysis of cephalopods and other tentacular creatures in contemporary media while also speculating that digital media might themselves constitute a weird intelligent alien If this were not enough to shiver ye timbers the book engages with contemporary discourses of posthumanism speculative realism object oriented ontology and animal studies to suggest that humans are the products of media rather than media being the products of humans Including case studies of films by Denis Villeneuve Park Chan wook and Celine Sciamma The Squid Cinema From Hell also provides a daring engagement with various media beyond cinema including literature music videos 4DX advertising websites YouTube Artificial Intelligence and more Zounds This unique and Lovecraftian book will change the way you think about and with our contemporary media saturated world For as we contemplate the abyss the abyss looks back at us and chthulumedias or media at the end of human times begin to emerge **The Yellow Peril: Dr. Fu Manchu and the Rise of Chinaphobia** Christopher

Frayling,2014-10-14 An entirely new perspective on current scaremongering about China s global ambitions and on the

Western media's ignorance of Chinese culture A hundred years ago a character who was to enter the bloodstream of 20th century popular culture made his first appearance in the world of literature In his day he became as well known as Count Dracula or Sherlock Holmes he was the evil genius called Dr Fu Manchu described at the beginning of the first story in which he appeared as the yellow peril incarnate in one man Why did the idea that the Chinese were a threat to Western civilization develop at precisely the time when China was in chaos divided against itself the victim of successive famines and utterly incapable of being a peril to anyone even if it had wanted to be Even the author of the Dr Fu Manchu novels Sax Rohmer acknowledged that China as a nation possess that elusive thing poise And what do the Chinese themselves make of all this Is it any wonder that they remember what we have carelessly forgotten the opium wars the unfair treaties that ceded Hong Kong and the New Territories and the stereotyping of Chinese people in allegedly factual studies Here cultural historian Christopher Frayling takes us to the heart of popular culture in the music hall pulp literature and the mass market press and shows how film amplifies our assumptions

Octopus's Garden Benjamin T. Jenkins, 2023-07-10 As Southern California recovered from the collapse of the cattle industry in the 1860s the arrival of railroads attacked by newspapers as the greedy octopus and the expansion of citrus agriculture transformed the struggling region into a vast idealized and prosperous garden New groves of the latest citrus varieties and new towns like Riverside quickly grew directly along the tracks of transcontinental railroads The influx of capital industrial technology and workers especially people of color

energized Southern California and tied it more closely to the economy and culture of the United States than ever before Benjamin Jenkins's *Octopus's Garden* argues that citrus agriculture and railroads together shaped the economy landscape labor systems and popular image of Southern California Orange and lemon growing boomed in the 1870s and 1880s while railroads linked the region to markets across North America and ended centuries of geographic isolation for the West Coast Railroads competed over the shipment of citrus fruits from multiple counties engulfed by the orange empire resulting in an extensive rail network that generated lucrative returns for grove owners and railroad businessmen in Southern California from the 1890s to the 1950s While investment from white Americans particularly wealthy New Englanders formed the financial backbone of the *Octopus's Garden* citrus and railroads would not have thrived in Southern California without the labor of people of color Many workers of color took advantage of the commercial developments offered by railroads and citrus to economically advance their families and communities however these people also suffered greatly under the constant realities of bodily harm low wages and political and social exclusion Promoters of the railroads and citrus cooperatives touted California as paradise for white Americans and minimized the roles of non white laborers by stereotyping them in advertisements and publications These practices fostered conceptions of California's racial hierarchy by praising privileged whites and maligning the workers who made them prosper The *Octopus's Garden* continues to shape Southern Californians' understanding of their past In bringing together multiple storylines Jenkins provides a complex and fresh perspective on the impact of citrus agriculturalists and railroad companies in Southern Californian history
