Street Bridge over the Potomac River and plunged into the ice covered river 0.75 nmi from the departure end of runway 36. Four passengers and one crewmember survived the crash. Four persons in the vehicles on the bridge were killed, four were injured. The National Transportation Safety Board determines that the probable cause of this accident was the flightcrew's failure to use engine anti-ice during ground operation and takeoff and to take off with snow/ice on the airfoil surfaces of the aircraft.
