

PEX

One Hand Pinch Clamp Fastening Tool

1. Cut PEX tubing square, leaving a clean, even edge. Remove any burrs.

2. Slip PEX pinch clamp over tubing and insert fitting. Place pinch clamp 1/8" below edge of tubing.

3. Place pinch clamp half between tool jaws and ratchet the clamp (approximately seven times) until the LED light comes on. This will assure that the pinch clamp is fully engaged.

4. To release the Pinch Tool, rotate the release lever on the side. It is very important to complete the pinch process before releasing the tool.

The LED light may not turn on after more than 7 ratchets when installing some 1 in. pinch clamps. Don't overclamp! Check with specification of pinch clamp manufacturer.

For use with Apollo, Watts®, Murray®, and Oetiker® PEX pinch clamps.
Do not use with Zurn® Glokclamps®. Do not use the fastening tool to remove pinch clamps.

The Solar Garden Greenhouse Ronald Jenkins, 2024-12-05 The Solar Garden Greenhouse is a description of my journey to research, plan, and build a greenhouse that would work well in Northern Idaho where we have short summers and hard winters. I explored and researched earth-sheltering, insulated foundations, rainwater harvest solutions, and geothermal principles that would allow a successful greenhouse not requiring a high carbon footprint. I developed automated heating and cooling systems that would not require a daily presence such as by manually opening doors, windows, and/or turning on fans. The book provides a discussion of these considerations and includes a pictorial description of the construction of the greenhouse and assorted systems as well as a description of how they worked out once built. My hope is to inspire others to continue this journey of finding means and methods to build effective greenhouses without a large carbon footprint and perhaps find further improvements to the solutions I describe. This process has been a labor of love and successful beyond what I could have hoped for.
