Despite the many advances made in the diagnosis and therapy of cancer, the mortality rate is still about half that of the incidence rate. However, the odds are not evenly distributed.

Prognosis for some cancers is good but for others few patients will survive 12 months This latter group of cancers is characterised by a proclivity to disseminate malignant cells in the host organ The degree of surgery possible may be limited by the critical nature of the organ and chemotherapy and radiotherapy are of palliative value only In some cases systemic metastases occur but in other cases failure to achieve local control results in death First among these cancers are the high grade brain tumours astrocytoma 3 4 and glioblastoma multiforme Local control of these tumours should lead to cure Other cancers melanoma metastatic to the brain for which a useful palliative therapy is not yet available and pancreatic cancer for which localised control at an early stage could bring about improved prognosis Patients with these cancers have little grounds for hope Our primary objective is to reverse this situation with Neutron Capture Therapy NCT The purpose of this fourth symposium is to hasten the day whereby patients with these cancers can reasonably hope for substantial remissions The first symposium on NCT was held in Boston in 1983 followed by Tokyo in 1985 and Bremen Germany in 1988

Radio Drama Martin Grams, Jr., 2024-10-16

The free standing radios of the middle decades of the 20th century were invitingly rotund and proudly displayed nothing like today's skinny televisions hidden inside entertainment centers. Radios were the hub of the family's after dinner activities and children and adults gorged themselves on western adventure series like *The Lone Ranger*, police dramas such as *Calling All Cars* and the varied offerings of *The Cavalcade of America*. Shows often aired two or three times a week and many programs were broadcast for more than a decade comprising hundreds of episodes. This book includes more than 300 program logs many appearing in print for the first time drawn from newspapers, script files in broadcast museums, records from NBC, ABC and CBS and the personal records of series directors. Each entry contains a short broadcast history that includes directors, writers and actors and the broadcast dates and airtimes. A comprehensive index rounds out the work.
