**The Experience of Examining**

**the PhD** Michael Byram, Maria Stoicheva, 2022-12-30 This book provides an authoritative overview of the criteria and standards of the doctorate across a wide range of international settings with a particular focus on the practices of examining. Presenting case studies and research from 13 universities in 13 countries across Africa, Asia, North and South America, Australia and Europe, the book is based on in-depth interviews and comparative analyses of the PhD examining experience. It reveals the variations and similarities in different academic traditions and investigates the extent to which there are comparable expectations and standards across countries. It suggests that criteria and standards, both written and unwritten, are broadly similar but shows that there is a need for much more explicitly formulated criteria and standards for an internationalised approach to doctoral assessment. Following on from the 2019 book *The Doctorate as Experience in Europe and Beyond*, this book will be of great interest to current and potential doctoral examiners, researchers of higher education and university administrators.

**Murray, How to Write a Thesis 5e** Rowena Murray, 2025-01-27 I have been drawing upon Rowena's work and this book specifically for many years now, both in my own thesis writing as well as with the students I now support. This is a fantastic and most welcome resource as the new chapters on AI and neurodiversity, as well as further developments and resources on other sections, bring it right up to date. Not only is it a very informative and useful resource, it also provides lots of excellent tasks and tools to employ that are a significant benefit to the writing processes at this level.

Joseph Allison, Lecturer in Clinical Education and Visiting Specialist, Plymouth Peninsula Medical School, UK. A must read for students and supervisors alike. This book has become a brilliant companion to navigating the complexities of academic writing. Writing my own thesis often felt like climbing a mountain, but Rowena's book became my map. Packed with practical advice, support and confidence-building strategies, it helped me reach the summit.

Michelle Smith, Lecturer in Sport and Exercise Psychology, University of Stirling, UK. The first edition of *How to Write a Thesis* was essential in my own PhD journey, providing a comprehensive oversight of thesis requirements that demystified the complex process of academic writing. Twenty years later, the latest iteration of the book remains vital reading. A must-buy book for PhD students.

Martin A Sharp, Director of Postgraduate Research, Edinburgh Napier University, UK. This fully updated edition of the classic guide to thesis writing will help you to write your thesis and make the most of the experience. It will also be useful for supervisors who want to help students develop their writing skills and strategies. This book breaks the writing of a thesis down into manageable tasks, offering routines for productive writing and drawing on research in different fields to help you discover the strategies that work best for you. Arguing that social writing activities such as writing retreats are key to getting started and staying motivated, this book will equip you to write regularly, maintain your confidence as you write and revise, respond to feedback and create a community of writers as you go.

New to this edition:

- 1 Brand new content on neurodiversity and wellbeing
