From his childhood fascination with the gigantic Natural History Museum model of a blue whale to his abiding love of Moby Dick to his adult encounters with the living animals in the Atlantic Ocean, the acclaimed writer Philip Hoare has been obsessed with whales. *The Whale* is his unforgettable and moving attempt to explain why these strange and beautiful animals exert such a powerful hold on our imagination. *Leviathan, Or, The Whale* Philip Hoare, 2009 The story of a man's obsession with whales which takes him on a personal historical and biographical journey from his childhood to his fascination with Moby Dick and his excursions whale-watching. All his life Philip Hoare has been obsessed by whales from the gigantic skeletons in London's Natural History Museum to adult encounters with the wild animals themselves. Whales have a mythical quality; they seem to elide with dark fantasies of sea serpents and antediluvian monsters that swim in our collective unconscious. In *Leviathan* Philip Hoare seeks to locate and identify this obsession. What impelled Melville to write *Moby Dick*? After his book in 1851, no one saw whales in quite the same way again. This book is an investigation into what we know little about: dark, shadowy creatures who swim below the depths only to surface in a spray of spume. More than the story of the whale, it is also the story of our own obsessions. *Glass and Water* Mark Harris, 2015-07-15

*Glass and Water* is the first book on underwater photography for freedivers. With contributions from expert underwater photographers, this book teaches the skills, knowledge, and equipment necessary to successfully pursue underwater photography without scuba gear. Rather than seeking to replace books on underwater photography, *Glass and Water* focuses on freediving techniques, equipment, and photo opportunities. By carefully choosing or adapting freediving and photographic equipment, some early hurdles can be avoided. Using appropriate freediving techniques can increase the length of time available for taking photographs underwater. And by being aware of the possibilities, frustrations can be avoided and good subjects sought out. Includes photos and/or contributions from Fred Buyle, Sue Flood, Danny Kessler, Dr. Anne Marie Kitchen, Wheeler Laura Storm, Andrew Sutton, Shane Wasik, and a Foreword by Dan Bolt. Contents include: Foreword by Dan Bolt, Free diving Equipment for Underwater Photography, Photographic Equipment, Underwater Photography Basics, Challenges and Opportunities for Freedivers, Lungcraft, Finning, Descents and Ascents, Neutral Buoyancy, Hydrodynamics, Safety, Creature by Creature, A Virtual Dive Behind the Lens.

and protest by the acclaimed author of *Albert and the Whale* weaving between the historical cultural and personal award winning author Philip Hoare reveals a web of creative minds and artistic iconoclasts fired by the wild and revolutionary genius of William Blake. Blake is one of the greatest artists in western history. His art envelops us. He invented a way to put words and images on a page to express his poetry and art in a manner that has never been truly equaled. Even in his own time his fans and followers were left speechless. Blake's heavenly bodies are our real selves soaring beyond time and space. His art is a time machine. We can climb aboard and be taken to the stars. Blake accepted no limits to the human spirit. Throughout his life he worked as one artist, two people with his partner Kate. Together they created their visions of what the world could be filled with majestic menageries of tigers burning bright and angels in trees of leviathans and demons and human fleas and a devil who burns with revolutionary ecstasy. In *William Blake and the Sea Monsters of Love* with Philip Hoare as our inimitable guide, Blake rises as a new hope for our own era. **Edinburgh Companion to Animal Studies**

What causes the Northern and Southern Lights? Written in the same entertaining style as the first book and once again illustrated with black and white line drawings, *Can Squid Fly?* will answer these and many more intriguing questions.
