Philippe Lacoue Labarthe Un Timely Meditations:

Philippe Lacoue-Labarthe John McKeane, 2017 *Philippe Lacoue-Labarthe* John McKeane, 2017-12-02 Philippe Lacoue Labarthe 1940 2007 was a professor of philosophy and also a poet a translator and a playwright His life and work were dedicated to the philosophical and political movements of the post 1968 era from his communal life together with Jean Luc Nancy to his collaborations with Jacques Derrida These movements also carried him towards disparate modes of writing such as poetry and theatre The tension between Lacoue Labarthe s timely and untimely meditations governs the approach in this study the first to attempt an accessible and comprehensive account of this forceful thinker **Music, Philosophy and**

Gender in Nancy, Lacoue-Labarthe, Badiou Sarah Hickmott, 2020-07-06 What counts as music for contemporary thinkers Why is music of use to philosophers and how do they use it in their work How do philosophers decide what music is and what assumptions are uncritically inherited in this move And what is the philosophical relationship between music and gender To answer these questions Sarah Hickmott looks at the way music is used characterised and understood in the work of Jean Luc Nancy Philippe Lacoue Labarthe and Alain Badiou Despite the differences in their philosophical theoretical positions all of these writers invoke music both directly and indirectly to negotiate their relationship to ontology politics ethics and aesthetics Given a longer philosophical history dating back at least to Plato of aligning music with the feminine she also

focuses on the way gender is deployed understood and constructed within the philosophy of music *The Pulse of Sense* Marie Chabbert, Nikolaas Deketelaere, 2022-03-30 This volume stages a series of encounters between the French philosopher Jean Luc Nancy and leading scholars of his work along four major themes of Nancy s thought sense experience existence and Christianity In doing so the volume seeks to remind readers that Nancy s sens has many meanings in French aside from those that easily carry over into English i e everything to do with meaning and the senses it also includes the way they are conducted the direction they take the thrust or pulse in which the circulation of sense exists Faithful to this plural understanding of sens the writings collected here aim to join Jean Luc Nancy in the process of making sense that animates his thinking rather than to deliver a definitive summary of his position on any given issue They are conceived of as notes along the way documenting encounters as moments of re direction and recording the pulse of sense that animates them In that spirit Nancy himself has provided each contribution with an echo in which he in turn responds to each author and thereby continues their mutual encounter Aside from these echoes this volume includes an original essay in which Nancy reflects upon the international trajectory of his thinking a trajectory that is to be and undoubtedly will be continued in many different directions across and around the world The chapters in this book were originally published as a special issue of *Angelaki* *Homo Mimeticus* Nidesh Lawtoo, 2022-11-15 Imitation is perhaps more than ever constitutive of human originality Many things have changed since the emergence of an original species called Homo sapiens but in the digital age humans remain mimetic creatures from the development of consciousness to education aesthetics to politics mirror neurons

to brain plasticity digital simulations to emotional contagion new fascist insurrections to viral contagion we are unconsciously formed deformed and transformed by the all too human tendency to imitate for both good and ill Crossing disciplines as diverse as philosophy aesthetics and politics Homo Mimeticus proposes a new theory of one of the most influential concepts in western thought mimesis to confront some of the hypermimetic challenges of the present and future Written in an accessible yet rigorous style Homo Mimeticus appeals to both a specialized and general readership It can be used in courses of modern and contemporary philosophy aesthetics political theory literary criticism theory media studies and new mimetic studies

Understanding Nancy, Understanding Modernism Cosmin Toma,2023-01-12 Over the past three decades Jean Luc Nancy has become one of the most celebrated contemporary philosophers His remarkably diverse body of work which deals with such topics as post Heideggerian ontology Christian painting the experience of drunkenness heart transplants contemporary cinema and the problem of freedom is entirely immersed in modernity as he puts it Within this plural framework art which he explicitly defines as a modern construct plays a singular role in that it is the very prism through which he explores the problems of sense and feeling in general particularly as they relate to our experience of modernity The contributors to Understanding Nancy Understanding Modernism fully delve into the heretofore under acknowledged and under explored modernism of Nancy s writings on philosophy and the arts through close readings of his key works as well as broader essays on the relationship between his thought and aesthetic modernity In addition to an interview with Nancy himself a final section consists of an extended glossary of Nancy s signature terms which will be a valuable resource for students and experts alike

Poetry's Knowing Ignorance Joseph Acquisto,2019-09-19 What kind of knowledge if any does poetry provide Poets make poems but they also make meaning and craft a kind of learned and creative ignorance as they provide infinitely revisable answers to the question of what poetry is That question of poetry s definition invites broader ones about the relationship of poetry to other lived experience Poetry thus implies something like a way of life that is resistant to definitive statements and conclusions and the creation of communities of readers and writers that live in ever renewed questioning To resist concluding is to embrace a kind of productive ignorance a knowledge that is first and foremost aware of poetic knowledge s own limits Poetry s Knowing Ignorance shows through an examination of French poetry how it is this dialogue in response to a constant questioning to an answer turned question that continues to blur the boundary between poetry and writing about poetry between poetry and criticism and between poetry and other kinds of experience

Heterogeneity of Being Marco Luis Dorfsman,2015-01-26 One hundred years after his birth Nobel laureate Octavio Paz is considered one of the most important thinkers of Mexican identity one of the most influential Mexican poets and one of the main representatives of a national cosmopolitanism Most readings of his work whether critical or laudatory operate within these parameters Through a careful analysis of Latin Americanist discourses on identity and difference Heterogeneity of Being goes beyond the standard interpretations of Octavio Paz as a thinker of national identity and proposes a radical

rethinking of the rift and the bond between literature and philosophy It puts forth the key concept of *différence* a difference a wound an inheritance a burden and a dispossession and reads it through the notion of similitude in order to show that Paz's tradition of rupture properly displays a continuity between self and other identity and difference time and space The work of Octavio Paz yields invaluable insights for the fields of literary theory cultural studies history of science and art history

Understanding Blanchot, Understanding Modernism Christopher Langlois, 2018-06-14 Maurice Blanchot occupies a central though still overlooked position in the Anglo American reception of 20th century continental philosophy and literary criticism On the one hand his rigorous yet always playful exchanges with the most challenging figures of the philosophical and literary canons of modernity have led thinkers such as Georges Bataille Emmanuel Levinas Jacques Derrida and Michel Foucault to acknowledge Blanchot as a major influence on the development of literary and philosophical culture after World War II On the other hand Blanchot's reputation for frustrating readers with his difficult style of thought and writing has resulted in a missed opportunity for leveraging Blanchot in advancing the most essential discussions and debates going on today in the comparative study of literature philosophy politics history ethics and art Blanchot's voice is simply too profound too erudite and too illuminating of what is at stake at the intersections of these disciplines not to be exercising more of an influence than it has in only a minority of intellectual circles Understanding Blanchot Understanding Modernism brings together an international cast of leading and emergent scholars in making the case for precisely what contemporary modernist studies stands to gain from close inspection of Blanchot's provocative post war writings The Challenges of the Humanities, Past, Present, and Future Albrecht Classen, 2018-10-08 This book is a printed edition of the Special Issue The Challenges of the Humanities Past Present and Future Volume 1 that was published in *Humanities* **The Routledge Companion to Hermeneutics** Jeff Malpas, Hans-Helmuth Gander, 2014-11-20 Hermeneutics is a major theoretical and practical form of intellectual enquiry central not only to philosophy but many other disciplines in the humanities and social sciences With phenomenology and existentialism it is also one of the twentieth century's most important philosophical movements and includes major thinkers such as Heidegger Gadamer and Ricoeur The Routledge Companion to Hermeneutics is an outstanding guide and reference source to the key philosophers topics and themes in this exciting subject and is the first volume of its kind Comprising over fifty chapters by a team of international contributors the Companion is divided into five parts main figures in the hermeneutical tradition movement including Heidegger Gadamer and Ricoeur main topics in hermeneutics such as language truth relativism and history the engagement of hermeneutics with central disciplines such as literature religion race and gender and art hermeneutics and world philosophies including Asian Islamic and Judaic thought hermeneutic challenges and debates such as critical theory structuralism and phenomenology Museum Memories Didier Maleuvre, 1999 The author shows how museum culture offers a unique vantage point on the 19th and 20th centuries preoccupation with history and subjectivity and demonstrates how the constitution of the aesthetic provides insight into the

realms of technology industrial culture architecture and ethics **Looking After Nietzsche** Laurence A. Rickels,1990-01-01 This book like the post Heideggerian reception of Nietzsche rides out the splits and frays of the text offering an up to date look at international Nietzsche scholarship Included are topics such as the collaboration of German thought with the rise of National Socialism and the alliance between Nietzschean genealogy and Freudian culture criticism in regard to technology and the unconscious the status of moral imperatives from Kant to Heidegger and Heidegger s alleged rediscovery of Nietzsche as the last metaphysician Looking After Nietzsche is nonexclusionary in the risks it takes every thread of Nietzsche is pursued throughout its labyrinthine entanglements **Critique of Journalistic Reason** Tom Vandeputte,2020-09-01 An encounter between philosophy and journalism recurs across the modern philosophical tradition Images of reporters and newspaper readers messengers and town criers announcements and rumors populate the work of such thinkers as Kierkegaard Nietzsche and Benjamin This book argues that these three thinkers preoccupation with journalism cannot be separated from their philosophy proper but plays a pivotal role in their philosophical work where it marks an important nexus between their theories of history time and language Journalism in the tradition Vandeputte brings to light figures before anything else as a cipher of the time in which philosophy is written If the journalist and newspaper reader characterize what Kierkegaard calls the present age that is because they exemplify a present marked by the crisis of the philosophy of history a time after the demise of history as a philosophizable concept In different ways the pages of the newspaper appear in the European philosophical tradition as a site where teleological and totalizing representations of history must founder together with the conceptions of progress and development that sustain them But journalism does not simply mark the end of philosophy for Kierkegaard Nietzsche and Benjamin journalistic writing also takes on an exemplary role in the attempt to think time and history in the wake of this demise The concepts around which these attempts crystallize Kierkegaard s instant Nietzsche s untimeliness and Benjamin s actuality all emerge from the philosophical confrontation with journalism and its characteristic temporalities *The Oxford Handbook of Music and Intellectual Culture in the Nineteenth Century* Paul Watt,Sarah Collins,Michael Allis,2020 In The Oxford Handbook of Music and Intellectual Culture in the Nineteenth Century contributors consider the fascinating and unexpected ways that nineteenth century writing on music contributed to debates about evolution the scientific method psychology exoticism gender and the divide between high and low culture The Modernity of Sanskrit Simona Sawhney,2009 Printbegr nsninger Der kan printes 10 sider ad gangen og max 40 sider pr session **Nietzsche's Culture War** Shilo Brooks,2017-11-03 This book is the first comprehensive interpretation of Nietzsche s Untimely Meditations It argues that the four Meditations which Nietzsche said deserve the greatest attention for my development are not separate pieces but instead form a unified philosophic narrative that constitutes his first attempt to diagnose and cure the spiritual ailments whose causes he traced to modern culture and science Taking Nietzsche s commentary on the four essays in his autobiographical work Ecce Homo as its interpretive guide

this book also shows that the *Untimely Meditations* contain early expositions of concepts like the last man the overman the new philosopher the creation of values and the malleability of nature all staples of his later philosophy **Prophets of Extremity** Allan Megill,1985 In this book the author presents an interpretation of four thinkers Nietzsche Heidegger Foucault and Derrida In an attempt to place these thinkers within the wider context of the crisis oriented modernism and postmodernism that have been the source of much of what is most original and creative in twentieth century art and thought

The Truth of the Technological World Friedrich A Kittler,2014-09-17 Twenty three essays that document the intellectual itinerary of the philosopher and cultural historian one of the most original thinkers in recent times Friedrich Kittler 1943 2011 combined the study of literature cinema technology and philosophy in a manner sufficiently novel to be recognized as a new field of academic endeavor in his native Germany Media studies as Kittler conceived it meant reflecting on how books operate as films poetry as computer science and music as military equipment This volume collects writings from all stages of the author s prolific career Exemplary essays illustrate how matters of form and inscription make heterogeneous source material e g literary classics and computer design interchangeable on the level of function with far reaching consequences for our understanding of the humanities and the hard sciences Rich in counterintuitive propositions sly humor and vast erudition Kittler s work both challenges the assumptions of positivistic cultural history and exposes the over abstraction and language games of philosophers such as Heidegger and Derrida **Poetics of Time and Space** Marco Luis Dorfsman,1992
