Mental Health Nursing Gylo (Julie) Hercelinskyj, Louise Alexander, 2019-07-30 *Mental Health Nursing: Applying Theory to Practice* is a new Australian text combining a theoretical approach to mental health nursing with clinical reasoning and a practical framework for real life nursing situations. Ideal for both clinical and theory mental health course units, the text was developed with input from consumers and clinicians and includes the clinical manifestations, impacts, treatment, and management of persons suffering from mental illness. Chapters on suicide and self-harm and *Mental Health First Aid* provide detailed coverage of these contemporary mental health issues, while a chapter on mental state examination (MSE) comprehensively explores MSE in a style similar to a traditional psychiatry text and in the context of many different mental health conditions, giving students multiple perspectives of presentations. Critical thinking and review questions challenge students to apply theory to practice, and pharmacology is discussed in each disorder chapter, helping students to contextualise their learning. With coverage of the Mental Health Act 2014 and criteria from the Diagnostic and Statistical Manual of Mental Disorders Fifth Edition (DSM-5) integrated throughout the text, equips students with a working understanding of major mental health disorders and the ability to work practically when engaging with persons suffering from mental illness. New print versions of this book come with bonus online study tools on the CourseMate Express and Search Me Nursing platforms.
