Robert Lowell's Imitations and the Cold War Simon van Schalkwyk, 2025-08-07 The first book length study focusing on Robert Lowell's career long preoccupation with the liberal mode of translational adaptation known as imitation Robert Lowell's *Imitations and the Cold War* argues that Lowell's imitations are simultaneously symptomatic of and critically responsive to familiar nodes of Cold War ideology such as containment and contamination secrecy and security post imperial U S expansion and Empire It departs from studies focused solely on *Imitations* 1961 Lowell's book length collection of translational adaptations by demonstrating how imitation shadows Lowell's work from his earliest collections *Land of Unlikeness* 1944 and *Lord Weary's Castle* 1946 through his celebrated mid career collections *Life Studies* 1959 and *For the Union Dead* 1964 and to later works such as *Near the Ocean* 1969 and his contributions of adaptations from the Russian of Anna Akhmatova and Osip Mandelstam collected in Olga Carlisle's anthology *Poets on Street Corners* 1967 Simon van Schalkwyk excavates the imitational substrate undergirding and informing Lowell's compositional method and poetic imagination throughout the course of his career In so doing he shows how imitation enacts at the level of form Lowell's restless investment in Cold War geopolitics and literary networks in ways that inform develop and complicate his more conventional canonization as an unquestionably American poet preoccupied solely and simplistically with personal or autobiographical modes of poetic confession As literary sites at which containment's dualities porosities leakages and contaminants are most clearly displayed Lowell's imitations simultaneously challenge and develop our understanding of confession's presumably strict preoccupation with the personal regional and national frameworks through which Lowell has commonly been understood

Total Cold War Kenneth Alan Osgood, 2006 Osgood focuses on major campaigns such as Atoms for Peace People to People and cultural exchange programs Drawing on recently declassified documents that record U S psychological operations in some three dozen countries he tells how U S propaganda agencies presented everyday life in America to the world its citizens living full happy lives in a classless society where economic bounty was shared by all Osgood further investigates the ways in which superpower disarmament negotiations were used as propaganda maneuvers in the battle for international public opinion He also reexamines the early years of the space race focusing especially on the challenge to American propagandists posed by the Soviet launch of Sputnik

Defending Democracy in Cold War Finland Marek Fields, 2019-12-02 In *Defending Democracy in Cold War Finland* Marek Fields offers a thorough account on the various informational and cultural strategies Britain and the United States used during the early Cold War decades in order to increase their influence and contain communism in Finland The book shows that by using propaganda and cultural diplomacy in an exceptionally challenging environment the two Western powers were able to achieve their main objectives in the region i.e. to defend democracy and strengthen Finland's attachment to the West surprisingly well Making

use of a large variety of British American and Finnish archives Fields proves that the Western countries interest in Finland during the Cold War was stronger than it has previously been realised Women of the Cold War Layla Gupta, During the Cold War espionage was a domain primarily dominated by men but women played an essential yet often underappreciated role in the intelligence operations of the Soviet Union Soviet intelligence agencies such as the KGB and the GRU deployed women in various capacities often using their perceived invisibility in the male dominated world of espionage to their advantage Women s involvement in espionage was seen as a strategic maneuver where they could gain access to sensitive information through their relationships charm and ability to blend into different environments These women were often tasked with gathering intelligence infiltrating enemy organizations and even recruiting foreign agents Some served as couriers transmitting secret information across borders while others took on roles in espionage rings working in tandem with male operatives Women s roles within the KGB were not limited to passive positions as they were involved in high stakes operations from surveillance to interrogation and even assassinations Their abilities were often downplayed in official accounts yet many played pivotal roles in missions that helped shape Soviet Cold War strategies *PART 3 OF HEARINGS BEFORE THE HOUSE SELECT COMMITTEE ON LOBBYING ACTIVITIES HOUSE OF REPRESENTATIVES FRANK BUCHANAN,1950* *Native Activism in Cold War America* Daniel M. Cobb,2008 Broadens the scope and meaning of American Indian political activism by focusing on the movement s early and largely neglected struggles revealing how early activists exploited Cold War tensions in ways that brought national attention to their issues **A New Cold War** Sanjaya Baru,Rahul Sharma,2021-08-04 In July 1971 US National Security Advisor Henry Kissinger made a secret visit to China to meet top Chinese leaders This inaugurated a new phase not just in US China relations but in contemporary history That visit and the subsequent US China relationship including the US decision to invest in China s economic rise and admit it into the WTO combined to firm up the foundations of China s rise as a world power For more than four decades the leadership of the two countries had a secretive pact which worked well to each other s benefit The US helped power China s economic growth in the hope that Beijing would turn a new political leaf and adopt Western practices e g democracy China grew economically and militarily used its financial prowess to spread its influence across continents as four generations of Chinese leaders built their nation at the expense of the US Half a century after Kissinger s historic visit the US and China are today engaged in a trade war bordering on a new Cold War Washington is not openly talking about de coupling from China which has begun to challenge its global dominance but it might very well be China has already established itself as a dominant power across Eurasia More worryingly China is militarily and economically threatening its neighbours including Japan Korea Vietnam Taiwan Australia Philippines Indonesia and India This collection of critical essays examines the impact consequences and legacy of Kissinger s first door opening visit to China and how it has shaped world order *Food Will Win the War* Ian Mosby,2014-05-21 During WWII as Canada struggled to provide its allies with food nutritionists warned that malnutrition

could derail the war effort Posters admonished women and children to Eat Right Feel Right because Canada Needs You Strong while cookbooks helped housewives become housoldiers through food rationing menu substitutions and household production Food Will Win the War explores the symbolic and material transformations that food and eating underwent during the war and the profound social political and cultural changes that took place in the 1940s Through official food guides and policies the state took unprecedented steps into the kitchens of the nation transforming the way women cooked what their families ate and how people thought about food Canadians in turn rallied around food and nutrition to articulate new visions of citizenship for their postwar future *The Weathermen On Trial* Caleb Stewart Rossiter,2018-12-01 A Trump tweet starts an FBI investigation in this historical novel and legal thriller leading to the arrest of an aging university professor for his role in violent acts of protest in the 1970s actual political bombings and invented political assassinations Real people such as the anti imperialist Weathermen leader Bernardine Dohrn and her compatriot Bill Ayers along with President Trump and his FBI director James Comey are complemented by fictional characters like FBI Cold Case agent Mar Shae Black McGurk and East Coast folk musician university student Val Shaw Complex plot twists are resolved in a realistic federal trial as the narrative alternates between the original crimes and today s attempts to arrive at justice As an introduction to the history of the Viet Nam anti war movement the novel represents the real actors actual backgrounds motivations actions words and voices based in part on recent memoirs by various Weathermen and the latest historical research on the group Their ideology is faithfully incorporated Paradoxically the characters on all sides act out of patriotism as they understand it and their convictions about what America stands for illustrating the deep divisions in American politics and society **Memoirs Of A Cold War Son** Gaines Post,2000-02 Post s experiences in high school in Madison Wisconsin and Paris his Camus influenced undergraduate years at Cornell University and his army service in Germany are set very effectively against the events of the Cold War McCarthyism and American crackdowns on dissidents American foreign and military policy in Western Europe in the nuclear age French and German life and culture crises in Paris and Berlin that nearly bring the West to war and the Post family to dissolution these are the larger scenes and subjects of his self disclosure as a contemplative conflicted Cold War agnostic **BOOK JACKET** Crime and No Punishment Marie Gottschalk,2025-11-18 How concentrated economic and political power in America protects elites and fosters violence of all kinds The United States is an exceptionally violent country increasingly unable or unwilling to stem violence in its many forms A growing corporate crime wave has gone unprosecuted and unpunished with those in the C suites largely escaping accountability Meanwhile the country has doubled down on pursuing people accused of street and drug crimes and immigration offenses Corporate impunity the financialization of the economy militarized policing the burgeoning carceral state and the forever wars in Afghanistan Iraq and elsewhere all have fostered corporate economic and state violence in America In *Crime and No Punishment* Marie Gottschalk argues that these developments have undermined the legitimacy of American political and economic institutions Gottschalk analyzes how

the concentration of economic political and military power has siphoned off vital resources preying on the most vulnerable communities and normalizing violence and death It has kept America from attacking the root causes of violent street crime and curtailing deaths of despair from suicide alcoholism drug overdoses and chronic diseases The United States continues to incarcerate more of its people than nearly every other country even as it decriminalizes or turns a blind eye to elite level corporate crime Public and scholarly attention however remains fixated on violent street crime although corporate and white collar crime and state and economic violence directly and indirectly hurt far more people in the United States Gottschalk contends that the US failure to protect its people from these harms has increased the fragility of democracy in America

Duck and Cover Melvin E. Matthews, Jr.,2011-11-08 During the 1950s and early 1960s school air raid drills bomb shelters and unnerving civil defense films served as constant reminders of the looming threat of nuclear war Throughout America a widespread civil defense effort used town meetings public school educational programs and the mass media television radio and especially motion pictures to mobilize every citizen for a protracted Cold War This volume explores how American popular culture has portrayed civil defense from mid twentieth century to the immediate post September 11 era With analysis of everything from early government propaganda films and 1950s science fiction films to Happy Days the Reagan era TV movie The Day After and the small screen nostalgia trend after 9 11 it shows how popular culture reflects American fears and the hope of preparedness The Laws of Wisconsin Wisconsin,1901 Includes some separate vols for special sessions **The Intimacies of Conflict** Daniel Y. Kim,2020-11-03 Winner 2020 Peter C Rollins Prize given by the Northeast Popular American Culture Association Enables a reckoning with the legacy of the Forgotten War through literary and cinematic works of cultural memory Though often considered the forgotten war lost between the end of World War II and the start of the Cold War the Korean War was as Daniel Y Kim argues a watershed event that fundamentally reshaped both domestic conceptions of race and the interracial dimensions of the global empire that the United States would go on to establish He uncovers a trail of cultural artefacts that speaks to the trauma experienced by civilians during the conflict but also evokes an expansive web of complicity in the suffering that they endured Taking up a range of American popular media from the 1950s Kim offers a portrait of the Korean War as it looked to Americans while they were experiencing it in real time Kim expands this archive to read a robust host of fiction from US writers like Susan Choi Rolando Hinojosa Toni Morrison and Chang rae Lee and the Korean author Hwang Sok yong The multiple and ongoing historical trajectories presented in these works testify to the resurgent afterlife of this event in US cultural memory and of its lasting impact on multiple racialized populations both within the US and in Korea The Intimacies of Conflict offers a robust multifaceted and multidisciplinary analysis of the pivotal but often unacknowledged consequences of the Korean War in both domestic and transnational histories of race Radicals on the Road Judy Tzu-Chun Wu,2013-04-12 Traveling to Hanoi during the U S war in Vietnam was a long and dangerous undertaking Even though a neutral commission operated the flights the possibility of

being shot down by bombers in the air and anti-aircraft guns on the ground was very real. American travelers recalled landing in blackout conditions without lights even for the runway and upon their arrival seeking refuge immediately in bomb shelters. Despite these dangers, they felt compelled to journey to a land at war with their own country, believing that these efforts could change the political imaginaries of other members of the American citizenry and even alter U.S. policies in Southeast Asia. In *Radicals on the Road*, Judy Tzu-Chun Wu tells the story of international journeys made by significant yet underrecognized historical figures such as African American leaders Robert Browne, Eldridge Cleaver, and Elaine Brown; Asian American radicals Alex Hing and Pat Sumi; Chicana activist Betita Martinez; as well as women's peace and liberation advocates Cora Weiss and Charlotte Bunch. These men and women of varying ages, races, sexual identities, class backgrounds, and religious faiths held diverse political views. Nevertheless, they all believed that the U.S. war in Vietnam was immoral and unjustified. In times of military conflict, heightened nationalism is the norm. Powerful institutions like the government and the media work together to promote a culture of hyperpatriotism. Some Americans, though, questioned their expected obligations and instead imagined themselves as internationalists as members of communities that transcended national boundaries. Their Asian political collaborators who included Buddhist monk Thich Nhat Hanh, Foreign Minister of the Provisional Revolutionary Government Nguyen Thi Binh, and the Vietnam Women's Union cultivated relationships with U.S. travelers. These partners from the East and the West worked together to foster what Wu describes as a politically radical, orientalist sensibility. By focusing on the travels of individuals who saw themselves as part of an international community of antiwar activists, Wu analyzes how actual interactions among people from several nations inspired transnational identities and multiracial coalitions and challenged the political commitments and personal relationships of individual activists.
