

# COMMON CORE STANDARD RI.9

How to Integrate (Combine)  
Information from Two Texts:

- Use signal words and phrases { Both texts explain... }
- Think about the main idea that is the same between BOTH texts.
- Look at the strategies the authors use to give the reader information.  
Do they use many illustrations?  
Do they give many examples?

Reading Poverty in America Patrick Shannon, 2014-03-14 In this book, Shannon's major premise remains the same as his 1998 *Reading Poverty*: Poverty has everything to do with American public schooling; how it is theorized, how it is organized, and how it runs. Competing ideological representations of poverty underlie school assumptions about intelligence, character, textbook content, lesson formats, national standards, standardized achievement tests, and business-school partnerships, and frame our considerations of each. In this new edition, Shannon provides an update of the ideological struggles to name and respond to poverty through the design, content, and pedagogy of reading education, showing how through their representations and framing, advocates of liberal, conservative, and neoliberal interpretations attempt the ideological practice of teaching the public who they are, what they should know, and what they should value about equality, civic society, and reading. For those who decline these offers, Shannon presents radical democratic interpretations of the relationship between poverty and reading education that position the poor, the public, students, and teachers as agents in redistribution of economic, cultural, and political capital in the United States.
