

Communications Servers - System Specifications

UNIVERGE® SV8100

The award winning* UNIVERGE SV8100 Communications Server is a robust, feature-rich and scalable system that is ideal for small businesses. It is designed to help solve today's communications challenges and offers the ability to expand as your business grows.

UNIVERGE SV8100 Model SE

To meet the needs of smaller businesses, or smaller 'satellite' offices of mid-sized businesses, NEC has introduced the UNIVERGE SV8100 Model SE. It is the perfect solution for organisations that are looking for a professional, flexible and easy-to-use communication system at a price that makes perfect sense.

VoIP and Traditional Voice Support

Deploy a pure IP solution or any combination of IP and traditional circuit-switched technology with a single system.

Application Integration

Embedded applications are easily accessed through simple license activation.

Scalability

The SV8100 Model SE can be simply migrated to the SV8100 Communications Server should your business requirements grow over time - meaning that you do not have to replace the entire system. Should your needs grow even further, the SV8100 can be migrated to the larger line capacity SV8300.

Versatile Architecture

The SV8100's rack stackable chassis (19"/48.3cm) supports server functions, media gateways and media converters through a single unit. The SV8100 Model SE is a smaller floor or wall mountable chassis (9.5"/24.1cm).
