**Testimonials:**

1. This person successfully passed the AZ 900 exam last Friday. Despite facing questions they were unfamiliar with and feeling the exam was comprehensive, they managed to clear it. Their preparation involved resources from Microsoft Learn, Scott Duffy's Udemy course, and John Savill's crash course on YouTube.
2. The exam turned out to be more challenging than anticipated. Upon passing, instead of elation, they were taken aback by the intricacy of the questions. Their six-day study regimen covered vast material, yet they felt only 20% of it appeared in the exam. The questions blended familiar and unfamiliar content designed to be particularly challenging. They believe the rigorous format ensures only those truly knowledgeable can succeed. Their study resources included Whizlabs, Tutorialsdjojo, Udemy courses, and Microsoft's free learning path.
