Resources in Education, 1996 **Clio's Laws** Mauricio Tenorio-Trillo, 2019-12-16 Offering a unique perspective on the very notions and practices of storytelling history memory and language Clio's Laws collects ten essays some new and some previously published in Spanish by a revered voice in global history Taking its title from the Greek muse of history this opus considers issues related to the historian's craft including nationalism and identity and draws on Tenorio Trillo's own lifetime of experiences as a historian with deep roots in both Mexico and the United States By turns deeply ironic provocative and experimental and covering topics both lowbrow and highbrow the essays form a dialogue with Clio about idiosyncratic yet profound matters Tenorio Trillo presents his own version of an *ars historica* what history is why we write it and how we abuse it alongside a very personal essay on the relationship between poetry and history Other

selections include an exploration of the effects of a historian's autobiography, a critique of history's celebratory obsession and a guide to reading history in an era of internet searches and too many books. A self-described exile, Tenorio Trillo has produced a singular tour of the historical imagination and its universal traits. *Oregon Teachers Monthly*, 1921 **How to**

Publish Your Communication Research: An Insider's Guide Alison Alexander, W. James Potter, 2001-08-23 Well known journal editors and communication scholars Alison Alexander and W. James Potter provide an insider's guide to getting published in scholarly communication journals. Alexander and Potter begin with a review of the manuscript submission process followed by coverage of writing traps that should be avoided. Additional chapters written by eight other distinguished journal editors tell prospective authors what editors and reviewers look for when deciding which articles should be published and which should not. Researchers, students, and professionals will find helpful and practical discussions on writing literature reviews, theoretical essays, quantitative and qualitative studies, interpretive inquiries, and critical cultural and historical essays.

Shady Characters: The Secret Life of Punctuation, Symbols, and Other Typographical Marks Keith Houston, 2013-09-24 An absolutely fascinating blend of history, design, sociology, and cultural poetics, highly recommended. Maria Popova, *Brain Pickings*. A charming and indispensable tour of two thousand years of the written word. Shady Characters weaves a fascinating trail across the parallel histories of language and typography. Whether investigating the asterisk and dagger which alternately illuminated and skewered heretical verses of the early Bible or the at sign which languished in obscurity for centuries until rescued by the Internet, Keith Houston draws on myriad sources to chart the life and times of these enigmatic squiggles, both exotic and everyday. From the Library of Alexandria to the halls of Bell Labs, figures as diverse as Charlemagne, Vladimir Nabokov, and George W. Bush cross paths with marks as obscure as the interrobang and as divisive as the dash. Ancient Roman graffiti, Venetian trading shorthand, Cold War double agents, and Madison Avenue round out an ever more diverse set of episodes, characters, and artifacts. Richly illustrated, ranging across time, typographies, and countries, Shady Characters will delight and entertain all who cherish the unpredictable and surprising in the writing life. *Comics of the New Europe* Martha Kuhlman, José Alaniz, 2020-04-21 Bringing together the work of an array of North American and European scholars, this collection highlights a previously unexamined area within global comics studies. It analyses comics from countries formerly behind the Iron Curtain, like East Germany, Poland, Czech Republic, Hungary, Romania, Yugoslavia, and Ukraine, given their shared history of WWII and communism. In addition to situating these graphic narratives in their national and subnational contexts, *Comics of the New Europe* pays particular attention to transnational connections along the common themes of nostalgia, memoir, and life under communism. The essays offer insights into a new generation of European cartoonists that looks forward, inspired and informed by traditions from Franco, Belgian, and American comics, and back as they use the medium of comics to reexamine and reevaluate not only their national pasts and respective comics traditions but also their own post-1989 identities and experiences.
