It is important for accountants to know the basic rules or concepts of GAAP so that they can guide them in making decisions about what entries to put through, e.g. in valuing stock, does one look at it from a very pessimistic angle (i.e. below cost for immediate sale) or at a reasonable value (i.e. at least at cost, assuming the business will continue for the foreseeable future under the going concern concept). In valuing Land & Buildings, use historical cost even though it might not be realistic.
