Gabe MaryAnn Jordan, 2015-03-29 Alvarez Security Agency Former Special Forces brothers in arms now working together to provide an elite security service in the southern city of Richland Gabe Malloy dedicated to his brothers spent his weekends with cheap booze and easy women When some of his friends finally settled down he wondered if he would ever find the woman of his dreams He just never expected to encounter her in an alley Jennifer Lambert worked as a social worker for the city and would often take food to the elderly residents in her building One night in an alley behind a restaurant she was startled by a tall handsome man wanting to assist Giving him the cold shoulder she left but dreams of him followed her long into the night Gabe knew the independent Jennifer was a woman worthy of knowing but convincing the beauty that she needed him was the challenge Raising her young brother plus the responsibilities of the elder center had kept her from looking for love but she took a chance on Gabe Now that he found her can he keep her safe when someone threatens her and those she loves Calling upon his brothers Alvarez Security races to save her before it is too late [Forum](#), 1980

Transnational Terrorism and State Accountability Vincent-Joël Proulx, 2012-11-05 Every State has an obligation to prevent terrorist attacks emanating from its territory This proposition stems from various multilateral agreements and UN Security Council resolutions This study exhaustively addresses the scope of this obligation of prevention and the legal consequences flowing from its violation so as to provide greater clarity on governments counterterrorism duties and to enhance State accountability for preventable wrongs It defines the contents and contours of the obligation while placing critical emphasis on the mechanics of State responsibility Whether obscured by new technologies like the Internet the sophisticated cellular structure of some terrorist organisations or convoluted political realities the level of governmental involvement in terrorist activities is no longer readily discernible in every instance Furthermore the prospect of governments waging surrogate warfare through proxies also poses intractable challenges to the mechanism of attribution in the context of

State responsibility This monograph sets out the shortcomings of the extant scheme of State responsibility while identifying a paradigm shift towards more indirect modes of accountability under international law a trend corroborated by recent State and institutional practice Drawing on varied legal and theoretical influences the study devises and prescriptively argues for the implementation of a strict liability inspired model grounded in the logic of indirect responsibility with a view to enhancing State compliance with counterterrorism obligations This shifts the policy focus squarely to prevention while promoting multilateralism and transnational cooperation Ultimately the legal and policy sensibilities underlying the book converge into a new theory of prevention in counterterrorism contexts From the Foreword by Judge Bruno Simma International Court of Justice Even if one might disagree with the bases on which the author constructs his argument the execution of the argument is solid and thorough The coverage of the major policy arguments and the available legal source materials is equally impressive Moreover the author's positions are genuinely progressive and present a fairly innovative solution in the form of a strict liability mechanism It behoves all scholars and practitioners of international law with an interest in combating international terrorism to consider the proposals outlined in this book Transnational Terrorism and State Accountability by Vincent Joël Proulx has been awarded the 2014 Myres McDougal Prize for best book in Law Science and Policy from the Society of Policy Scientists

Institutionalizing State Responsibility Vincent-Joël Proulx, 2016-05-06 Since the 9 11 attacks international organizations have become actively engaged in devising counterterrorism strategies and frameworks This monograph examines the role UN organs can play in implementing the law of State responsibility in global security contexts using transnational terrorism as its principal case study The institutional mechanisms utilized by the UN in implementing State responsibility are assessed in detail shedding light on how the ICJ the General Assembly and the Security Council contribute to the implementation of State responsibility in the context of global security By acknowledging the Security Council's role as a post 9 11 legislator this book argues that the Council can play an important and sometimes determinant role in implementing a State's legal responsibility for failing to prevent terrorism both inside and outside the Chapter VII framework Featuring a discussion of the more controversial consequences flowing from State responsibility this monograph also explores the prospect of injured States adopting forcible measures against responsible States for their failures to prevent terrorism The book investigates whether self defence and other forcible reactions envisaged both inside and outside the Council can be reconciled with State responsibility principles *Federal Register*, 2012-04 *Official Summary of Security Transactions and Holdings Reported to the Securities and Exchange Commission Under the Securities Exchange Act of 1934 and the Public Utility Holding Company Act of 1935*, 1993 Official Summary of Security Transactions and Holdings United States.
