Network marketing has been around for many years. If you've heard of companies like Avon, Tupperware and Mary Kay, all of these businesses employ network marketing strategies to sell their products. Network marketing makes use of a wide range of networks to reach more people which traditional advertising otherwise does not reach. That's why it encourages its participants to recruit more reps or downlines. It relies on a person's ability to influence that network to sell the products. Legitimate network marketing companies should make a profit by selling products and services and not rely solely on the recruitment of new members. If a company gets most of the revenue through recruitments, you might want to double check this as it might be an illegal pyramid scheme. This book will teach you all the important information and strategies you need to be effective at network marketing. You will learn different techniques on how to sell products or services as well recruit downlines as well. This book will teach you about the following topics: Introduction to Network Marketing, Types of Network Marketing Businesses, How to Find the Right Network Marketing Business, How to Present and Sell Your Product, Techniques to Following Up With Your Prospects, 10 Ways to Build Your Team, Find Prospects, Recruiting Like a Pro, How to Help New Recruits Get Started.
