

Nervous System Worksheet

1.) Label the neuron.

2.) Color the diagram as suggested below.

3.) There are three different kinds of neurons or nerve cells. Match each kind with its function.

Motor Neuron: The nerve cell that transmits impulses from the brain or spinal cord to a muscle or gland.

Sensory Neuron: The nerve cell that carries impulses from a sense receptor to the brain or spinal cord.

Relay Neuron: The nerve that connects sensory and motor neurons.

Match term with description:

Synapse - The connection between adjacent neurons.

Axon - The long fiber that carries the nerve impulses.

Restoring Functional Behaviors After Traumatic Peripheral Nerve Injuries George Davis Bittner, Jared Bushman, Jaimie Shores, Joseph Alderete, Dale Sengelaub, 2024-02-20 Peripheral nerve injuries PNIs by trauma are the most common neuronal injury in civilian and military populations and significantly burden health care systems Mammals including

humans with PNIs experience 1 immediate loss of sensory and motor functions mediated by the denervated target tissues 2 rapid 3 7d Wallerian Degeneration WD of severed distal axonal segments and 3 slow 1mm day regeneration by naturally occurring axonal outgrowths from surviving severed proximal stumps that produce poor if any functional recovery because of slow axonal regeneration for long distances and lack of axonal guidance Denervated muscle fibers and sensory organs often atrophy before any re innervation can occur Fundamentals of Neurophysiology Robert F. Schmidt, 2013-04-17 Although just two years have passed since the first English edition of this book advances in neurophysiology have dictated considerable revision of most of the chapters The chapters on synaptic transmission motor systems and the autonomic nervous system for example have been revised extended and in some parts entirely rewritten In response to a frequently expressed wish a chapter on the integrative functions of the nervous system has been added Here the use of the term integrative functions expresses our lack of a better general term covering such diverse activities and states of the nervous system as waking sleeping dreaming consciousness speech learning and memory This chapter also includes an introduction to the physiology of the cerebral cortex and the characteristics of the electroencephalogram Another new section is a chapter on the control systems aspects of central nervous activity a reflection of the fact that many processes particularly those involving motor activity and the autonomic nervous system can best be described and analyzed in terms of control theory The previous Chapter 7 Sensory Systems has been largely included in another volume Fundamentals of Sensory Physiology Finally again at the suggestion of readers a bibliography has been added to guide the student further into the topics of the individual chapters Most of the references are recent they offer access to the current original literature **Senses, Nervous &**

Respiratory Systems: The Nervous System - Spinal Cord and Nerves - Google Slides Gr. 5-8 Susan Lang, 2022-11-17 This is a Google Slides version of the The Nervous System Spinal Cord and Nerves chapter from the full lesson plan Senses Nervous Respiratory Systems Our resource is written in an easy to understand way that makes it a hit for students Move through the nervous system from the spinal cord to the nerves All of our content is reproducible and aligned to your State Standards and are written to Bloom's Taxonomy About GOOGLE SLIDES This resource is for Google Slides use Google Slides is free with a Google email account We recommend having Google Classroom in addition to Google Slides to optimize use of this resource This will allow you to easily give assignments to students with a click of a button This resource is comprised of interactive slides for students to complete activities right on their device It is ideal for distance learning as teachers can share the resource remotely with their students have them complete it and return where the teacher can mark it from any location What You Get An entire Google Slides presentation with reading passages comprehension questions and drag and drop activities that students can edit and send back to the teacher A start up manual including a Teacher Guide on how to use Google Slides for your classroom and an Answer Key to go along with the activities in the Google Slides document
