Composing Media Composing Embodiment Kristin L Arola, Anne Wysocki, 2012-03-31 What anybody is and is able to do cannot be disentangled from the media we use to consume and produce texts from the Introduction Kristin Arola and Anne Wysocki argue that composing in new media is composing the body is embodiment In *Composing Media Composing Embodiment* they have brought together a powerful set of essays that agree on the need for compositionists and their students to engage with a wide range of new media texts These chapters explore how texts of all varieties mediate and thereby contribute to the human experiences of communication of self

the body and composing Sample assignments and activities exemplify how this exploration might proceed in the writing classroom Contributors here articulate ways to understand how writing enables the experience of our bodies as selves and at the same time to see the work of our writing in mediating selves to make them accessible to institutional perceptions and constraints These writers argue that what a body does and can do cannot be disentangled from the media we use nor from the times and cultures and technologies with which we engage To the discipline of composition this is an important discussion because it clarifies the impact s of literacy on citizens freedoms and societies To the classroom it is important because it helps compositionists to support their students as they enact learn and reflect upon their own embodied and embodying writing

Fiction, Invention and Hyper-reality Carole M. Cusack, Pavol Kosnáč, 2016-11-18 The twentieth century was a period of rapid change for religion Secularisation resulted in a dramatic fall in church attendance in the West and the 1950s and 1960s saw the introduction of new religions including the International Society for Krishna Consciousness ISKCON the Church of Scientology and the Children of God New religions were regarded with suspicion by society in general and Religious Studies scholars alike until the 1990s when the emergence of a second generation of new new religions based on popular cultural forms including films novels computer games and comic books and

highly individualistic spiritualities confirmed the utter transformation of the religious spiritual landscape Indeed Scientology and ISKCON appeared almost traditional and conservative when compared to the radically de institutionalised eclectic parodic fun loving and experimental fiction based invented and hyper real religions In this book scholarly treatments of cutting edge religious and spiritual trends are brought into conversation with contributions by representatives of Dudeism the Church of All Worlds the Temple of the Jedi Order and Tolkien spirituality groups This book will simultaneously entertain shock challenge and delight scholars of religious studies as well as those with a wider interest in new religious movements
