Anderson, Nancy Law, Andreas Quale, 2009-04-01 This compendium of papers documents educational ICT policies and practices in 37 countries making it a valuable resource for understanding and comparing ICT related national policy developments in education We believe that this work offers a unique in depth examination of the trends within major education systems and how they have adapted to and taken advantage of the challenges and opportunities posed by the new information and communication technologies A special feature of this edition is that it allows for interesting comparative analyses of sub groups of countries as many Asian European Union and former eastern European countries as well as the United States and Canada among others are included in the book But it allows also for other than regional comparisons given that a number of newly industrialized countries such as Brazil Chile Malaysia and South Africa are represented in this book together with many OECD countries This book is the result of the effort and hard work of the contributing authors many of whom are the NRCs for IEA SITES in their respective countries Special thanks must go to the Norwegian Royal Ministry of Education and Research and the Netherlands Kennisnet ICT OP School Foundation both of which provided generous support for the preparation and dissemination of the book to the Center for Information Technology in Education CITE of the University of Hong Kong which assisted in the technical preparation of the manuscript and to the IEA Secretariat which facilitated the copyediting of the chapters We want to acknowledge especially the professional contribution of Paula Wagemaker who has copyedited the entire volume This copyediting work is especially critical and challenging as many of the chapters were written by authors for whom English is a foreign language We also want to express our appreciation to David Robitaille chair of the IEA Publications and Editorial Committee and his committee for the critical and constructive review of the manuscript
