

Neuron Anatomy Activity

The parts of the neuron have been labeled. Your challenge is to write the correct name for each part and explain what it does. If you need some help, ask your tutor or consult the lecture notes/Google.

1. Axon terminals

Release the neurotransmitters/
information of the presynaptic cell

2. Myelin Sheath – nodes

Allows electrical impulses to be
transmitted quickly and efficiently
along the nerve cells

3. Axon

Carries impulses/ information away
from the nerve/ cell body

4. Soma (Cell body)

Contain genetic information,
maintains the structure of the
neuron and provides energy to drive
activities

5. Nucleus

Needed for the production of
proteins within the cell

6. Dendrites

Receiving part of the neuron.
Receives synaptic input from the
axons – receives information from
other cells.

Anatomy and Physiology Laboratory Textbook, Intermediate Version, Fetal Pig Harold Benson, 1996

[Beyond Mirror Neurons](#) Howard Burton, 2020-10-01 This book is based on an in depth filmed conversation between Howard Burton and Greg Hickok Professor of Cognitive science at UC Irvine where he directs the Center for Language Science and the Auditory and Language Neuroscience Lab This thought provoking conversation examines Greg Hickok's neuroscience research related to speech and language which led him to eventually reject many aspects of the mirror neuron hypothesis while giving his views on the mechanisms behind imitation and what mirror neurons really do This carefully edited book includes an introduction Monkey See Monkey Don't and questions for discussion at the end of each chapter I Talking Neuroscience Speech language and cognition II Enter Mirror Neurons Grasping monkeys and old theories III One Size Fits All The kitchen sink of cognitive science IV Imitation What it is and what it isn't V Seeking a Controller Structural investigations VI The Community Responds Sceptics and believers VII A Different Perspective Prediction and sensory states VIII Sociological Explorations The merits of primary sources IX Neuroplasticity Speculations on the underlying mechanisms X On the Front Burner Lots to investigate About Ideas Roadshow Conversations Presented in an accessible conversational format Ideas Roadshow books not only

explore frontline academic research but also reveal the inspirations and personal journeys behind the research ,

Artificial General Intelligence 2008 P. Wang,B. Goertzel,S. Franklin,2008-02-18 The field of Artificial Intelligence AI was initially directly aimed at the construction of thinking machines that is computer systems with human like general intelligence But this task proved more difficult than expected As the years passed AI researchers gradually shifted focus to producing AI systems that intelligently approached specific tasks in relatively narrow domains In recent years however more and more AI researchers have recognized the necessity and the feasibility of returning to the original goal of the field Increasingly there is a call to focus less on highly specialized narrow AI problem solving systems and more on confronting the difficult issues involved in creating human level intelligence and ultimately general intelligence that goes beyond the human level in various ways Artificial General Intelligence AGI as this renewed focus has come to be called attempts to study and reproduce intelligence as a whole in a domain independent way Encouraged by the recent success of several smaller scale AGI related meetings and special tracks at conferences the initiative to organize the very first international conference on AGI was taken with the goal to give researchers in the field an opportunity to present relevant research results and to exchange ideas on topics of common interest In this collection you will find the conference papers full length papers short position statements and also the papers presented in the post conference workshop on the sociocultural ethical and futurological implications of AGI

The Handy Psychology Answer Book Lisa J. Cohen,2016-02-22 Bridges the gap between today s entertainment focused pop psychology on television and the dry academic research that is published in journals A primer on human behavior and psychology The Handy Psychology Answer Book helps answer why humans do what we do through accurate scientific data presented in a lively accessible and engaging way It covers the fundamentals and explains the psychology behind how people deal with money sex morality family children aging addiction work and other everyday issues It takes a journey through the history and science of psychology and showing how psychology affects us all Fully revised to reflect the latest scientific research such as the current DSM 5 Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association the latest neurobiological theories and the changing face of marriage this timely reference has expanded to include information sections on the biology and evolution of emotions technology and adolescence bisexuality optimism autism as well as a full section on the law eyewitness testimony and police shootings Featuring more than 1 500 answers to questions concerning how the human mind and the science of psychology really work this fascinating guide delivers the real facts of modern psychology along with fun factoids and thought provoking insights into what motivates human behavior This intriguing exploration provides insights into the current science of the mind by answering questions such as How have other cultures addressed psychological issues Why was Freud so focused on sex How do twin studies help illuminate the role of genetics How can I maintain a healthy brain Why do some people hear voices that aren t really there Why do children see monsters in the closet at night How have recent changes in technology

affected adolescent development Why does time seem to speed up as we age Is it normal to argue during marriage Does religion make people happier How do we reduce social prejudice How has morality changed over the course of history What are the personality traits of people who succeed in their professions Why do so many politicians get trapped in scandals Does genetics play a role in voting behavior Which therapies are best for which kinds of problems How might the stress of police work affect decision making in high stress situations The Handy Psychology Answer Book also includes a helpful glossary of terms complete reference sources for topics discussed and an index With a wide range of information suitable for everyone this is the ideal source for anyone looking to get a better understanding of psychology It provides clear answers on the history basic science and latest research and psychology behind everyday situations and at different stages in life

Psychology in Everyday Life David G. Myers, 2008-10-17 LEARN IT LIVE IT Why take psychology What makes psychology a science Can it really help me understand my feelings and behaviors Or how I get along with family and friends Now from the world's foremost author for the introductory psychology classroom comes a new textbook that makes learning about the psychology of our lives a captivating experience for students at all levels Carried by the author's acclaimed empathetic voice *Psychology in Everyday Life* is David Myers' most inviting text to date This new book represents a breakthrough in the interplay of text and visuals yet as always provides a rich source of scientific insights into the lives we live Any student regardless of age or background will find it a text that speaks directly to him or her and will embrace it not just for its grade raising potential but for its revelations about what makes a person a stronger student a more tuned in friend or partner a more effective worker or a wiser parent
