English as a Lingua Franca in Teacher Education Telma Gimenez, Michele Salles El Kadri, Luciana Cabrini Simões Calvo, 2017-11-07 A lingua franca perspective into English language teaching in Brazil has only recently taken flight. s radar Multimodality, Digitalization and Cognitivity in Communication and Pedagogy Natalya V. Sukhova, Tatiana Dubrovskaya, Yulia A. Lobina, 2021-10-21 This book positions itself at the intersection of the key areas of the modern humanities. Different authors from a variety of countries take innovative approaches to investigating multimodal communication, adapting pedagogical design to digital environments and enhancing cognitive skills through transformations in teaching and learning practices. The eclectic forms under study require eclectic approaches and methodologies, and the authors cross disciplinary boundaries drawing on philosophy, linguistics, semiotics, computational linguistics, mathematics, cognitive studies, and neuroaesthetics. Part I presents methods of analysing multimodal communication in its different displays, covering promotional video in crowdfunding project presentations, multimodal public signs of prohibition and visuals as arguments. Part II explores varied teaching methodologies that have emerged as a result of and in response to modern technological changes and contains some practical hints for educators. It demonstrates the pedagogical potential of video games, virtual worlds, linguistic corpora, and online dictionaries. Part III focuses on psychological and cognitive factors influencing success in the classroom, primarily ways of developing students and teachers' personalities. The volume sits at the intersection between Communication Studies, Digital Humanities, Discourse Analysis, Education Theory, and Cognitive Studies and is useful to scholars and students of communication, languages, education, and other areas of the humanities. This book should trigger scholarly discussions as well as stimulating practitioners' interest in these fields. **New American Inside**

**Leading from the Inside Out** David Grubb, Lynda Tredway, 2015-12-03 This book proposes that the collective responsibility of teachers as classroom and school leaders working together to solve their own problems provides the fulcrum of school change. It makes the case that teachers and school leaders do not operate in a vacuum but rather they work within the larger context of policy and other social influences. Grubb and Tredway provide the building blocks of history, policy, and social analysis that are necessary if teachers are to be effective in the collective school, a place where adults thrive as learners and are able to co-create joyful learning experiences for children and youth. By encouraging teachers to move out of the individual classroom and to think critically and institutionally about the schools they would like to work in about their own responsibilities for creating such schools, about the range of policies from outside the school and how they can influence those policies rather than being subjected to them, this book shows that a teacher's influence is not limited to the classroom and students but can significantly shape and inform external policies and decisions. **New American Inside Out** Sue Kay, 2010
