

## SOME RESEARCH TOPICS FOR STUDENTS

Quentin F. Stout  
QStout@umich.edu

Here's a quick overview of some research topics I'm interested in. I've also worked with many students that initiated their own project. If you have something interesting to pursue come and discuss it. I've emphasized PhD thesis topics, but for some of the areas there are undergraduate research projects available. Most of our research involves parallelism, though some is serial. Most, *but not all*, of my students:

- design algorithms for various abstract models of parallelism (with myriad tiny processors or agents)
- and/or design algorithms for real computers (machine learning, multidisciplinary science, etc.)
- and/or model and analyze some aspect of parallelism or cooperative behavior

Former students have gone on to careers at universities, Google, IBM, Intel, Microsoft, think tanks, Silicon Valley startups, national research labs, etc. Two won awards for *Best Thesis* within the entire university.

Many computational/learning/social processes are inherently parallel: your brain, internet traffic, evolution, the stock market, etc. Another important reason to study parallelism: *computers aren't getting any faster* (due to pesky limitations imposed by physics), but problems keep getting larger and harder.

For example, Facebook has more than a billion users, and probably  $> 10^{11}$  messages have been left on users' walls. Suppose you want to find the strongly connected components of the directed graph with edges given by who wrote a message on whose wall. This takes at least 15 minutes using an optimized implementation of Tarjan's algorithm. Finding strongly connected components is often the first step in much harder graph problems. Perhaps the harder problem takes  $100\times$  as long — do you want to wait a day for its solution?

Can the 15 minutes be reduced to 15 seconds, and the day to less than 1/2 hour? Not on a serial computer: Tarjan's serial algorithm is optimal in  $O$ -notation, and the high-order coefficients are close to absolutely optimal. 15 seconds should be possible on a parallel computer. However, you need a new algorithm since Tarjan's uses depth-first search, which can't be parallelized.

Laptops have graphics processors (GPUs) with  $\approx 100$  processors, IBM's Watson computer won Jeopardy by using  $\approx 3,000$  cores, supercomputers have  $> 10^6$  cores, etc. However, for many problems there are no efficient parallel programs, so there are many open research problems. Here's a whimsical explanation of parallel computing: <http://web.eecs.umich.edu/~qstout/parallel.html>

# Tfirs 0ips Or Esearch Tudents

**Rachel F. Baskerville**

## **Tfirs Oips Or Esearch Tudents:**

**Applying IFRS Standards** Ruth Picker, Leo van der Tas, David Kolitz, Gilad Livne, Janice Loftus, Miriam Koning, Cathrynne Service, 2025-04-17 A comprehensive IFRS practice resource from leading accounting authorities In the newly revised fifth edition of Applying IFRS Standards a team of accounting experts delivers a comprehensive practice resource designed for accountancy students and accounting practitioners seeking to better understand the complexities of International Financial Reporting Standards IFRS The book begins with an overview of the International Accounting Standards Board IASB and explains how it establishes accounting standards before moving on to a discussion of the key concepts and applications of IFRS It offers insights and examples sourced from the international business world and addresses the skills you need to apply the standards in real world business environments In addition to a comprehensive factual breakdown of the IFRS Standards parts of the book are accompanied by an academic perspective which offers key relevant research findings Applying IFRS Standards provides discussion questions exercises and references as well as complimentary access to a companion website that contains additional chapters instructor slides test banks more exercises a solutions manual and new IFRS Learning Resources This is an essential learning tool for students and early career accounting professionals as well as a useful desk reference for established accounting practitioners

*IFRS Adoption in Research and Development Companies* Yusuf Nulla, 2014 Globally the use of the IFRS in financial reporting is the requirement in many countries However the question of whether such a global transition towards a single set of accounting standards has been met by the presumed benefits of higher accounting quality and comparability yet remains unanswered This paper primarily examines the effect of the mandatory IFRS adoption in Canada by the research and development companies It was a comparative study between the Canadian GAAP financial reporting from 2008 to 2010 and IFRS financial reporting from 2011 to 2012 Since this research is an empirical study the quantitative research method is applied The research question of this research study is Does IFRS adoption improve accounting quality in research and development companies This research finds that lower persistency and predictability in earnings decrease in earnings influence to shareholder value weak volatility in market price better predictability of cash flow and financial forecasts increase in accruals and timeliness loss of recognition and decrease in research and development expenditures

The Adoption of IFRS in Poland Iwona Vellam, 2012 The introduction of IFRS International Financial Reporting Standards in the EU in 2005 was perceived to be a major step towards greater global harmonisation of accounting leading to better comparability and uniformity of financial statements Deloitte Touche Tohmatsu 2005 However prior literature suggests that there are significant national differences in de facto application of the international standards Kvaal and Nobes 2010 Krzywda and Schroeder 2007 This thesis supported with empirical data contributes to knowledge by rejecting the argument commonly put forward by the International Accounting Standards Board IASB and other policy setters that the adoption of IFRS will in itself be sufficient to achieve harmonisation of accounting

practice The research uses a case study of Poland to address three main research questions Firstly whether the accounting standards as promulgated by IASB International Accounting Standards Board have been fully adopted by Polish listed companies Secondly the thesis addresses the question that if Polish companies are not compliant with IFRS what are the reasons for the non compliance The thesis draws on the sociological perspective of new institutional theory as put forward by Meyer and Rowan 1977 and DiMaggio and Powell 1983 to explain the reasons for the deviation in accounting practice from IFRS in Poland The response of the Polish companies to the external demands to adopt IFRS has been evaluated using the model developed by Oliver 1991 where responses may vary from full acquiescence to defiance Thirdly the thesis addresses the question to what extent is new institutional theory adequate for explaining the motives driving the behaviour of various actors in the field of financial reporting The study contributes to knowledge by linking institutional theory to organisational behaviour and accounting practice in a transition economy in a novel and previously unexplored way in order to gain a better understanding of the role of accounting in Poland The study of Poland provides a particularly insightful and novel approach for the study because Poland is a post communist economy and so its national institutional orientation is significantly different to the Anglo Saxon origins of IFRS Poland is also a recent entrant to EU and so the interaction of communist legacy with market orientation allows better understanding of the institutional and economic factors that shape accounting The thesis maintains that financial reports produced by Polish companies are rationalised myths due to the largely ceremonial adoption of IFRS Furthermore the quality of accounting is affected by various competing institutional forces The thesis makes a contribution to the theory by challenging the narrow perspective of mainstream new institutional theory which focuses on the homogeneity and permanency of existing practices In contrast this research focuses on the dynamic conflict between the existing structures and new regulatory pressures that lead to the breakdown of old institutional arrangements In particular the study addresses two aspects of institutional theory that have been neglected in prior research Firstly drawing on Lounsbury 2008 the notion of multiple logics and therefore different concepts of rationality have been mobilised to explain variation in accounting practice Secondly the role of power and conflict are used to explain the current institutional arrangements in Poland and the changing role of the accountancy profession Lawrence 2008 In adopting the power and multiple logics perspectives which are not addressed in the earlier seminal works a better insight has been gained into the heterogeneity of organisations rather than accepting the notions of order and stability Using institutional perspective it is argued that companies are failing to comply fully with IFRS because they face a multiplicity of expectations arising from different institutional origins Their strategic response to these pressures is to compromise to satisfy the competing demands of the accounting profession investors and the tax authorities The power and resource dependency constructs were also utilised to explain how major firms of accountants attempt to penetrate the existing accounting structures in Poland and so influence the role that accounting plays in Poland The analysis also highlights the tensions between the various bodies and

the impact that has on company reporting In particular both the state and other stakeholders utilise a common set of financial statements and the extent to which they meet the objectives of each user group is explained using the power construct Following call by Suddaby 2010 and DiMaggio 1985 for greater research focus on actions at actor level this research considers individual organisational responses to the requirement to introduce IFRS into Polish accounting framework The thesis finds that that Polish companies will change their established practices in response to the external influences and their actions are rationally determined based on different logics and the relative influence of coercive forces which either promote or hinder change The research has found that in Poland coercive pressure was the primary mechanism for achieving isomorphism whilst prior literature indicates that in market economies mimetic mechanism was far more important This coercive mechanism was particularly potent due to the strong influence of the state which was a legacy of the communist system leading to weak accountancy profession In contrast increasing influence of the global accountancy firms and EU regulation are forcing the changes to the accounting regulation governance structures and education of accountants in Poland The research finds that in spite of the fact that all companies examined purport to comply with IFRS there are significant deviations in de facto compliance The findings provide strong evidence of decoupling through superficial compliance Organisations are not however decoupling in a uniform manner but appear to selectively decide on areas where they comply or not In particular lack of compliance with disclosure requirements appear to be related to cultural characteristics of secrecy and power distance which were prevalent in the communist era Research confirms that companies compromise by making explicit statement of compliance with IFRS whilst in many cases failing to meet the spirit of IFRS in failing to fully provide useful information for the stakeholders Even where there is compliance the introduction of IFRS has not improved uniformity due to the use of alternative treatments permissible under IFRS The research utilises a mixed methodology to gain a deeper understanding of the complexity of the factors implicated in shaping of accounting In order to identify the level of compliance with IFRS published financial data for 2005 for 40 Polish companies that are listed on the Warsaw Stock Exchange is analysed and then explained with in depth interviews held with representatives of the institutions implicated in the study The differences between Polish accounting regulation and IFRS were measured using comparability index first proposed by Gray 1980

**How Does the English of IFRS Challenge an International Student Cohort?**

**Evidence from a Chinese Cohort** Rachel F. Baskerville, 2017 Educators and regulators world wide are recognizing a range of problems that are arising in both teaching and implementation of IFRS due to language and translation issues The research question asks what it is about the English in which IFRS are written that causes problems for an effective understanding of IFRS by a Chinese undergraduate student cohort All 88 participants with Chinese as their first language were studying accounting at New Zealand and Chinese Universities They translated and then independently back translated four sentences of IFRS chosen for the research There were 168 back translations useable for the analysis This study

highlights the specific problems students face in understanding the specialized English of accounting and in particular illustrates problems with the syntax and lexicon used in IFRS The significance of the findings of this paper originate in the method used there are other studies which tackle the issue of translatability but only using a quantitative approach The analysis of these sentences from IFRS is detailed enough to illustrate exactly how problems arise in syntax and the lexicon We suggest what steps educators may take to alleviate the degree to which pedagogical outcomes are compromised by such issues of understandability

Institutional Theory and IFRS Marta Silva Guerreiro,2020 This paper highlights the capacity for Institutional Theory IT to render in depth understanding of change processes associated with the adoption and implementation of international accounting standards by countries and organizations Although the fact of requiring the adoption of IFRS could be characterized as a form of coercive power recent developments in IT help to explore the extent to which adoption and diffusion of IFRS is shaped by agency the interests of actors involved in the adoption process and the role of institutional entrepreneurs and institutional work We provide a structured review of literature that uses an IT framework in the context of adopting and implementing IFRS The review brings together various streams of IT and current debates in the management and organization literature This allows us to outline an agenda for future research that proposes six new research questions for investigation These research questions are intended to encourage greater regard for the capacity of the theoretical toolkit of institutional logics to explore institutional entrepreneurship institutional work and the institutional dynamics of change processes associated with the adoption maintenance and disruption of accounting systems

Eventually, you will categorically discover a other experience and feat by spending more cash. yet when? pull off you say yes that you require to acquire those all needs following having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will lead you to comprehend even more going on for the globe, experience, some places, gone history, amusement, and a lot more?

It is your extremely own epoch to doing reviewing habit. among guides you could enjoy now is **Tfrs 0ips Or Esearch Tudents** below.

### **Tfirs 0ips Or Esearch Tudents Introduction**

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Tfirs 0ips Or Esearch Tudents free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Tfirs 0ips Or Esearch Tudents free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Tfirs 0ips Or Esearch Tudents free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally

available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Tfrs 0ips Or Esearch Tudents. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Tfrs 0ips Or Esearch Tudents any PDF files. With these platforms, the world of PDF downloads is just a click away.

### FAQs About Tfrs 0ips Or Esearch Tudents Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Tfrs 0ips Or Esearch Tudents is one of the best book in our library for free trial. We provide copy of Tfrs 0ips Or Esearch Tudents in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Tfrs 0ips Or Esearch Tudents. Where to download Tfrs 0ips Or Esearch Tudents online for free? Are you looking for Tfrs 0ips Or Esearch Tudents PDF? This is definitely going to save you time and cash in something you should think about.
