The Dialectics of Orientalism in Early Modern Europe Marcus Keller, Javier Irigoyen-García, 2017-11-09
Uniting twelve original studies by scholars of early modern history literature and the arts this collection is the first that foregrounds the dialectical quality of early modern Orientalism by taking a broad interdisciplinary perspective Dialectics of Orientalism demonstrates how texts and images of the sixteenth and seventeenth century from across Europe and the New World are better understood as part of a dynamic and transformative orientalist discourse rather than a manifestation of the supposed dichotomy between the East and the West The volume's central claim is that early modern orientalist discourses are fundamentally open self critical and creative Analyzing a varied corpus from German and Dutch travelogues to Spanish humanist treaties French essays Flemish paintings and English diaries this collection thus breathes fresh air into the critique of Orientalism and provides productive new perspectives for the study of east west and indeed globalized exchanges in the early modern world

Renaissance & Seventeenth - Century Studies Joseph Anthony Mazzeo, 2021-11-29
First published in 1964 Renaissance Seventeenth Century Studies contains essays which fall into two groups The first four are concerned with problems of metaphor and style and treat two important eras in literary history when these problems underwent critical re examination St Augustine marks the classical attempt to take account of biblical poetics while the two essays on the theory of the metaphysical style treat the attempt of seventeenth century critics to comprehend at the theoretical level the expansion of metaphysical possibilities that marked the metaphysical movement The second group of essays are in general concerned with Machiavelli and Machiavellism and Andrew Marvell However they are again essentially concerned with the way in which crucial metaphors and idea images serve as principles for organising experience both in Machiavelli's own writings and in that of work of Marvell which reflects his influence The final essay Cromwell as Davidic King weaves together Machiavellian and Augustinian strands as they are manifested in the works of a poet of wit the various light of whose mind responded harmoniously to the different currents of thought and taste these essays discuss This book will be an essential read for scholars and researchers of literature literary history political philosophy and philosophy in general

American Aurora Timothy Grieve-Carlson, 2024 American Aurora explores the impact of climate change on early modern radical religious groups during the height of the Little Ice Age in the seventeenth century Focusing on the life and legacy of

Johannes Kelpius 1667-1707 an enormously influential but comprehensively misunderstood theologian who settled outside of Philadelphia from 1604 to 1707 Timothy Grieve Carlson explores the Hermetic and alchemical dimensions of Kelpius's Christianity before turning to his legacy in American religion and literature This engaging analysis showcases Kelpius's forgotten theological intricacies spiritual revelations and cosmic observations illuminating the complexity and foresight of an important colonial mystic As radical Protestants during Kelpius's lifetime struggled to understand their changing climate and a seemingly eschatological cosmos esoteric texts became crucial sources of meaning Grieve Carlson presents original translations of Kelpius's university writings which have never been published in English along with analyses and translations of other important sources from the period in German and Latin Ultimately American Aurora points toward a time and place when climate change caused an eruption of esoteric thought and practice and how this moment has been largely forgotten
