During two decades characterized by affluence and upward mobility in Greek society the musical expressed and reinforced the optimism of the times while capturing the tensions and contradictions that emerged as a result of rapid social changes Beginning with an introduction to modern Greece and cultural identity the book locates the genre in its historical context and argues that it consists of different layers of cultural appropriation and transformation that redefine traditionally fixed notions of identity Old Greek cinema is examined the Greek musical is defined and a number of key films are analyzed with particular emphasis on the style and structure of the musical numbers The work concludes with a filmography of Greek musicals lists of the annual outputs of the production companies Finos Films Karagiannis Karatzopoulos Klak Films and Damaskinos

100 Film Musicals includes films from countries that often tried to emulate the Hollywood style like Britain and Germany as well as from very different cultures like India Egypt and Japan Jim Hillier and Douglas Pye also discuss post 1960s films from many different sources which adapt and reflect on the conventions of the genre including recent examples such as Moulin Rouge and High School Musical demonstrating that the genre is still very much alive
