In common with republicanism or socialism in continental Europe Liberalism in nineteenth century Britain was a mass movement By focussing on the period between the 1860s and the 1880s this book sets out to explain why and how that happened and to examine the people who supported it their beliefs and the way in which the latter related to one another and to reality Popular support for the Liberal party was not irrational in either its objectives or its motivations on the contrary its dissemination was due to the fact that the programme of reforms proposed by the party leaders offered convincing solutions to some of the problems perceived as being the most urgent at the time This is a revealing innovative synthesis of the history of popular support for the Liberal party which emphasises the extent to which Liberalism stood in the common heritage of European and American democracy     *The Oracle* ,1881     **Catalogue of Works on Political Economy . . .
