A Study of Erotic Literature in England W. v. Murat, 2019-09-24 The present work fills a gap as it attempts to offer a history of erotic literature published in the United Kingdom The word Study in the title is perhaps a bit exaggerated as the material is largely taken from the now well known bibliographies by Pisanus Fraxi Henry Spencer Ashbee and quotations from the books themselves The time line is WW II Who was the author He may have been Charles Reginald Dawes 1879 1964 who is supposed to have written but not published a text of this or a similar title His profession or his activities are not known he once called himself a writer but library catalogues credit him only with two publications The Marquis de Sade Paris 1927 and Retif de la Bretonne London 1946 privately printed He may have been a popular writer under pseudonyms though Dawes owned a good erotica collection which he willed to the British Museum Library that would explain why the author of this Study if he was Dawes could quote freely from erotic texts which only few of his contemporaries would have had available The main merits of this book are that the author was thoroughly familiar with English and French erotic literature and that he put his material in chronological order and in context The editor added a number of references illustrations and indices of personal names and titles to facilitate navigation *The Private Case* British Library, 1981

Typescript incomplete of a bibliography of the Private Case Erotica Collection at the British Library then Museum typescript includes manuscript revisions and extensive manuscript instructions to the typesetter Also includes page proofs of the title pre title and contents pages and page makeups for the contents introduction preface and authorities consulted pages

allow the interplay of primarily sexual passions Continuity with the past is a further strand which enables us to explore how the sources of the Gothic are connected with the origin of existence and of history both individual and general Here the Gothic offers a voice for writers whose perceptions do not fit into those of the dominant group which makes them sensitive both to psychological and social gaps This leads to an exploration of the very idea of sources and an attempt to bridge the gaps as can be observed in the variety of epithets used to clarify the ways that Gothic works ranging from heroic gothic to porno gothic This takes the reader to the main core of Gothic a genre which is always ready to admit new forms of the unreal to enter and change whatever has become mainstream literature and a way of reading and a mode profoundly affecting the reading experience The Gothic mode cultivates its wicked ways in literature working through it as a leavening yeast
