Religion and American Education Warren A. Nord, 2014-07-01 Warren Nord's thoughtful book tackles an issue of great importance in contemporary America: the role of religion in our public schools and universities. According to Nord, public opinion has been excessively polarized by those religious conservatives who would restore religious purposes and practices to public education and by those secular liberals for whom religion is irrelevant to everything in the curriculum. While he maintains that public schools and universities must not promote religion, he also argues that there are powerful philosophical, political, moral, and constitutional reasons for requiring students to study religion. Indeed, only if religion is included in the curriculum will students receive a truly liberal education, one that takes seriously a variety of ways of understanding the human experience. Intended for a broad audience, Nord's comprehensive study encompasses American history, constitutional law, educational theory and practice, theology, philosophy, and ethics. It also discusses a number of current controversial issues, including multiculturalism, moral education, creationism, academic freedom, and the voucher and school choice movements. Modules McDougal Littell Incorporated, 2005 **Modules**, 2005 *McDougal Littell the Americans* Gerald A. Danzer, 1999-07-23 Masculinities at School Nancy Lesko, 2000 Despite the trend toward gender studies in the social sciences, studies of masculinity have been largely absent from educational research. This volume presents a collection of the current critical scholarship on the creation of masculinities in schools, relations among competing definitions of masculinity and femininity, and linkages between masculinity and school practices. With contributions from the leading scholars in the field, Nancy Lesko studies masculinities in North American, Australian, and British schools. This book covers all levels of schooling, from preschool to graduate school, and school settings from computer labs to football fields. This fascinating addition to Sage's Research in Men and Masculinities Series provides a thoughtful examination of how masculinities are constructed among teachers, students, and administrators, locating these analyses within broader social, economic, and ideological contexts. *Masculinities at School* is a must read for scholars of education, sociology, men's studies, and gender studies. *Ecology: Teacher's ed*, 2005 **The Changing Earth: Teacher's ed**, 2005 *Reading Like a Historian* Sam Wineburg, Daisy Martin, Chauncey Monte-Sano, 2015-04-26 This practical resource shows you how to apply Sam Wineburg's highly acclaimed approach to teaching *Reading Like a Historian* in your middle and high school classroom to increase academic literacy and spark students' curiosity. The Confederate and Neo-Confederate Reader James W. Loewen, Edward H. Sebesta, 2011-01-05 Most Americans hold basic misconceptions about the Confederacy the Civil War and the actions of subsequent neo Confederates For example two thirds of Americans including most history teachers think the Confederate States seceded for states rights This error persists because most have never read the key documents about the Confederacy These documents have always been there When South Carolina seceded it published Declaration of the Immediate Causes Which Induce and Justify the Secession of South Carolina from the Federal Union The document actually opposes states rights Its authors argue that Northern states were ignoring the rights of slave owners as identified by Congress and in the Constitution Similarly Mississippi s Declaration of the Immediate Causes says Our position is thoroughly identified with the institution of slavery the greatest material interest of the world Later documents in this collection show how neo Confederates obfuscated this truth starting around 1890 The evidence also points to the centrality of race in neo Confederate thought even today and to the continuing importance of neo Confederate ideas in American political life The 150th anniversary of secession and civil war provides a moment for all Americans to read these documents properly set in context by award winning sociologist and historian James W Loewen and coeditor Edward H Sebesta to put in perspective the mythology of the Old South
