Religion, Faith and Crime Kim Sadique, Perry Stanislas, 2016-05-28 This unique collection brings together international contributors from a range of disciplines to explore crime and responses to crime through a religious faith based lens At a time when religion is under the media spotlight in terms of religiously motivated hate crime terrorism and child abuse this book provides an important platform for academic debate It examines these and other key issues including faith as a coping

strategy religion as a motivating factor and the role of religion and morality in shaping criminal justice responses This collection clearly places religion faith at the heart of criminological enquiry and illustrates its relevance in addressing wider social issues and would be of benefit to students and academics researching or studying in these areas It will also be of interest to community and criminal justice practitioners and those with an interest in community engagement and multi faith Refuge in a Moving World Elena Fiddian-Qasmiyeh, 2020-07-17 Refuge in a Moving World draws together more than thirty contributions from multiple disciplines and fields of research and practice to discuss different ways of engaging with and responding to migration and displacement The volume combines critical reflections on the complexities of conceptualizing processes and experiences of forced migration with detailed analyses of these experiences in contemporary and historical settings from around the world Through interdisciplinary approaches and methodologies including participatory research poetic and spatial interventions ethnography theatre discourse analysis and visual methods the volume documents the complexities of refugees and migrants journeys This includes a particular focus on how people inhabit and negotiate everyday life in cities towns camps and informal settlements across the Middle East and North Africa Southern and Eastern Africa and Europe Rethinking the Anthropology of Magic and Witchcraft Phillips Stevens, Jr., 2023-12-12 This book introduces students to the anthropology of magic and witchcraft terms widely used but with no widely accepted definitions It takes a new approach to this area within the anthropology of religion demonstrating that the bases for these beliefs and alleged practices are inherent in human cognition and psychology even instinctual and likely rooted in our evolutionary biology It shows how magic and magical thinking are regular elements in people's daily lives and that understanding the components of the witchcraft complex offers surprisingly important insights into patterns of thinking and social behavior The book reviews the many meanings of magic and witchcraft and introduces the best anthropological meanings of the terms The components of these beliefs are timeless and universal this fact and recent advances in the brain sciences suggest that the principles of magic are derived from basic processes of human thinking and the attributes of the witch derive from neurobiologically based fears and fantasies The propensity for such beliefs probably had adaptive significance in the evolutionary development of the human species they are inherently human This book is intended to focus anew on the core concepts of magic witchcraft and the supernatural while also serving as an introduction to the anthropology of religion for undergraduate and graduate level courses A Concise Introduction to Cultural Anthropology Mark Q. Sutton, 2021-07-29 This book offers a concise and accessible overview of cultural anthropology for those coming to the subject for the first time It introduces key areas of the discipline and touches on its historical developments and applied aspects As well as traditional topics such as social organization politics and economics the book engages with important contemporary issues including race gender sexuality and colonialism In a beginner friendly format this book is ideal for students of anthropology as well as for the interested reader as an introduction to the subject **Appropriating the Dao**

Lukas K. Pokorny, Franz Winter, 2024-04-04 Assembling original contributions this book is a pioneering attempt to address the Euro American esoteric reception and appropriation of China Positioned between eighteenth century s mesmerism and intersections with the modern martial arts current the contributions specifically centre on nineteenth and early twentieth century occult appraisals and representations This book opens up an under explored area of research in the field of East West interactions and the global history of religions *In God's Good Image* J.W. Buck, 2024-12-03 Cultural identity matters to us and to Jesus Culture is all around us Nothing we think do or say exists outside of it But the story of God is clear We are all made in God's good image and God's people are meant to be a diverse community Looking to the example of Jesus author J W Buck offers practical insights into how cultural identity fits into our walk as Christians No matter where we come from and no matter how complex our cultural narratives the Scriptures point to the One who embodied a particular identity of a Jewish man in first century Palestine in order to shape our own Jesus teaches those formed by majority culture to humbly embrace their identity as they foster space for others And he empowers those from minority cultures to resist pressure to assimilate in unhealthy ways and instead live into their God given identity God dignifies our culture and wants us to shape it to look more like Jesus We are meant to be like Jesus in our home culture in our heart language and throughout our collective journey to understand how our diversity points us to a better expression of God's good image **Human Societies** Mark O. Sutton, 2025-05-28 Human Societies A Brief Introduction succinctly covers the basic concepts of cultural anthropology in a way that is relevant and engaging to the introductory student Less time is spent on anthropological detail and more time on the relevance of anthropological understanding to the contemporary world. The issues facing the contemporary Western world are also confronting the thousands of other societies. The book deals with topics such as the variety of sexualities the thousands of religions how people adapt to their environments the ways people organize themselves the multitude of foods and cuisines adaptations to climate change refugees and migrants and the many different approaches to reproduction all topics to which students should already be generally aware Included are succinct chapters discussing personality adaptation social political and economic organization food and diet sex and gender religion and ritual and change and development The book also includes short Spotlight boxes that enlighten the reader about specific topics of interest as well as chapter summaries exercises key terms and a comprehensive glossary Human Societies A Brief Introduction is essential reading for undergraduate students taking their first steps into cultural and applied anthropology Witchcraft Accusations and Persecutions as a Mechanism for the Marginalisation of Women Samantha Spence, 2017-08-21 This books draws on feminist commentary from the disciplines of anthropology history law politics and sociology in order to deal with the phenomenon of modern day witchcraft It focuses on the re emergence of witchcraft beliefs in contemporary society suggesting that witchcraft accusations and persecution are being used as a marginalisation mechanism of women The re emergence of witchcraft beliefs in contemporary society and the prevalence of the violence associated with such beliefs has

received little attention within academic literature yet witchcraft related violence against women is progressively becoming one of the most pervasive forms of violence facing women today This book addresses this gap in the literature discussing the return of witchcraft beliefs to contemporary society whilst assessing the effectiveness of international human rights law in protecting women from witchcraft accusations and persecution
