**Business Writing in the Digital Age** Natalie Canavor, 2012 Business Writing in the Digital Age fills an urgent need to equip business and MBA students to write more effectively in a style that works for today's business world. Using a readable, highly accessible approach and numerous concrete examples, this book frames writing as a strategic tool to accomplish goals. Readers learn a step-by-step system that tells them what to say and how to say it in every circumstance. At the same time, they learn how to improve their technical skills by applying practical techniques rather than grammatical rules. In today's business world, success depends on writing. Those who write well are better able to win opportunities, establish their reputation, persuade others to their viewpoint, and build relationships. They collaborate, manage, and lead more effectively. Writing well also equips businesspeople to function in a global marketplace and reach increasingly diverse audiences. This book builds readers' confidence and capabilities. No matter what their starting point, they absorb a solid foundation that applies to all writing. They also learn the specifics of crafting messages and documents that range from the traditional like letters and proposals to media such as email, blogs, web sites, PowerPoint, and social networking. This broad coverage makes the material relevant and compelling. Students also develop tools to keep improving on their own and to handle new communication channels as they emerge. Business Writing in the Digital Age helps teachers stay current with a changing media landscape. They can use it as a complete guide to writing development, drawing on the practice opportunities and group projects supplied or assign students to work with some or all the material on their own.
